Automotive Training Group

Classes not yet scheduled in Fort Collins for 2006. They anticipate a Honda and Acura class.

For more information, see <http://www.atgtraining.com>, or contact Rachel at 1-800-233-3182, x 234.

Advanced Technical Training for Automotive Professionals

When selecting a technical training company, choose the one dedicated to the automotive professional - The Automotive Training Group, a licensed provider of JENDHAM, INC. training material. We offer technicians the most for their money. We offer highly technical courses, backed up with unmatched technical information and trainer experience. Our classes are designed around the balanced goal of presenting complex information and techniques in ways that everyone can understand, while still challenging the most experienced technicians.

ASA Colorado Training

No classes scheduled yet. Contact Linda Crist at (303) 202-5231 for more information.

BC Automotive

Randy Bernklau and Jon Riggle are putting together a reprogramming class that should be held in early spring, but the dates are not finalized. There is the possibility of an advanced OBD school as well, but this is not finalized.

For more information, log on to: training@bcautomotive.com

Colorado Emissions Inspection Certification

Certification Classes: Jan. 30, Feb. 1, 6 and 8, 2006

Re-Certification Class: February 8, 2006

Contact Mike Coe at CSU's NCVECS at 491-7240 for more information.

Automotive Video, Inc.

Automotive Video, Inc. ("TEAM AVI") has been *the leader in automotive diagnostic and repair training* programs since 1994. Our automotive training programs focus on equipment specific training, enhanced Scanner and Lab Scope training, plus cutting-edge training on MODE \$06, OBDII, Hybrids, EVAP, electrical, transmissions, fuel injection, and more. We also offer Ford, GM, Chrysler, and Import diagnostic training. TEAM AVI's automotive technical training programs include DVDs (and VHS tapes), manuals, and live seminars.

CALL TODAY FOR MORE INFO! 800-718-7246, ext. 233.

See <http://www.auto-video.com/> or 1-800-718-7246, x 233 for more information.

Training For Techs

No fee for technicians to register/log-in as members, set course restrictions (i.e.: interested in OBD-II, Electronics, ABS, and Diagnostic Equipment Training) and geographic/travel limitations (i.e.: willing to travel within the state of Delaware, east coast, etc.). Once registered, the Technician will receive email, based on their personal settings every time an instructor/trainer adds a course to the database. The technician may also use the sites searchable database to locate specific courses or training products (i.e.: books, videos, and cd-rom training materials). If the tech is interested in the course they can click on the register link and their info will automatically be forwarded to the respective trainer or training company. Once again, NO Fee to the technician or training company.

See www.trainingfortechs.com for more information.
