ADOPTED BUDGET

BUDGET IN BRIEF

CITY OF FORT COLLINS

2025-2026 ADOPTED BUDGET IN BRIEF

DESIGN AND ACCESSIBILITY

This year's Budget in Brief is streamlined and simplified from previous years. New Colorado law has raised the standard for digital accessibility, which mandates where and how fully designed PDF reports like this one can be posted or distributed online. Consequently, we have focused the content on the key information in the 2025-2026 Adopted Budget. Those highlights will also be embedded directly on the City's website for full digital accessibility. This shift in approach enables us to adhere to state requirements while upholding our commitment to transparency and ensuring our Budget in Brief is as accessible as possible to the general public.

2025-2026 BUDGET OUTCOMES AND THEMES

The City of Fort Collins uses a budgeting process called Budgeting for Outcomes, where the focus is on the programs and services provided to the community, rather than the traditional approach of budgeting by department. By focusing on achieving these Outcomes, this twist on budgeting gives results that are more meaningful to residents and businesses. Budget requests (which are also called 'Offers') for programs and services are created by City staff and must align with the following Outcomes:

High Performing Government

Fort Collins exemplifies an efficient, innovative, transparent, effective and collaborative city government.

Culture and Recreation

Fort Collins provides and maximizes access to diverse cultural and recreational amenities.

Economic Health

Fort Collins promotes a healthy, sustainable economy reflecting community values.

Environmental Health

Fort Collins promotes, protects and enhances a healthy and sustainable environment.

Neighborhood and Community Vitality

Fort Collins provides a high-quality built environment, supports connected neighborhoods, seeks to advance equity and affordability, and fosters the social health of the community.

Safe Community

Fort Collins provides a safe place to live, work, learn and play.

Transportation and Mobility

Fort Collins provides a transportation system that moves people and goods safely and efficiently while being accessible, reliable and convenient.

The following themes were a consistent backdrop to the challenging conversations and tradeoffs to get to a balanced budget.

1. PLANNING FOR THE FUTURE WITH THE 2050 TAX

The 2023 voter-approved 0.5% Sales and Use tax provides needed funding in the areas of Parks and Recreation, Transit and Climate. These community investments will improve management of our infrastructure, improve accessibility and ridership as the transit system is built out, and help the City achieve its near- and longer-term climate goals.

2. CONTINUED INVESTMENT IN ASSET MANAGEMENT TO REDUCE THE EXISTING BACKLOG

The City's overall asset management backlog continues to be an area of focus in this budget. Infrastructure repair and replacement costs have risen significantly due to inflation and supply chain issues in the past few years. Funding from key revenue streams like the 2050 Tax will be a big help for the dedicated areas they support. Planned Utility rate increases will help address electric and water utility infrastructure needs. Other areas of the City, however, need to rely on careful use of reserves for expensive replacements like HVAC systems and outdated technology systems.

3. ADVANCE COUNCIL'S PRIORITIES

City Council priorities are important guides in crafting the budget, as reflected in their adopted priorities and the 2024 Strategic Plan. Specific attention was paid to climate, environmental health and housing. While this work is more easily visible in various enhancement offers, there is also work being done daily across the City in ongoing operations that help achieve these priorities.

4. INVEST IN EXISTING CITY TALENT TO BE A COMPETITIVE EMPLOYER

Being a competitive employer in the community requires investment in staffing, from both a salary and benefits perspective. This budget proposes salary increases that keep the City at market rates across a wide range of positions. Turnover rates have dropped since the Great Resignation and, while still above our internal targets, City turnover is less than the national rate. Investments in talent are a key factor in employee attraction and retention.

5. MAINTAIN SERVICE LEVELS AMIDST SIGNIFICANT INFLATIONARY CHALLENGES

Inflation has had very real and significant effect on the City's operations and those pressures were felt in this budget. Revenues do not necessarily increase at the same rate as inflation and some areas like construction have seen much greater cost increases. These increased costs can sometimes impact levels of service, highlighting the importance of using performance data to ensure the City is doing what it can to maintain those levels of service as expenses rise. Expanded staffing in specific areas and additional programmatic funding are important to maintain existing levels of service.

6. PANDEMIC-ERA FUNDING IS COMING TO AN END

The previous budget included programs stood up during the pandemic for various community benefits; those programs were largely paid for with federal funding the City received through the American Rescue Plan Act (ARPA). Council conversations about that funding in the 2025-2026 Budget specifically discussed the short-term availability of that one-time revenue, acknowledging that many ARPA-funded programs might not continue into the next budget cycle. Although some programs have moneys that can be used into 2025, many of the ARPA-specific and other pandemic-era programs were not recommended to be continued in the 2025-2026 Budget due to a lack of funding.

PROCESS OVERVIEW AND TIMELINE

The City’s traditional two-year budget process is shown below.

ODD YEARS

- Sept-Nov  Community engagement and input on the next Strategic Plan
This is the 1st opportunity for the public to provide input before staff begins to develop requests (Offers) for the next budget

This is the 5th opportunity for the public to provide input
By law (through City Charter) the Budget must be adopted by Nov. 30

REVENUE – WHERE DOES THE MONEY COME FROM?

The City of Fort Collins relies on revenue from many sources to pay for the programs and services provided to the community. The charts below display the different types of revenue received across the City (Citywide).

2025-2026 CITYWIDE REVENUES (ALL CITY FUNDS INCLUDING UTILITIES)

	2025	2026
Payments by Residents and Businesses for City Services	\$396.0M	\$418.5M
For example, utility payments for water and electricity, buying a day pass at Northside Aztlan or renting a picnic shelter at a local park.		
Sales Taxes	\$208.9M	\$191.9M
When we shop in Fort Collins, part of the taxes paid become revenue for the City. The tax rate can change when voters approve taxes, like for Natural Areas.		
Internal Payments Between City Departments	\$96.7M	\$72.2M
The Senior Center, for example, would need to pay the Streets Department to repave their parking lot.		
Payments by Other Governments for City Services	\$60.0M	\$47.8M
Nearby cities may pay for services from the City of Fort Collins, like bus services.		
Miscellaneous Revenue	\$49.3M	\$51.6M
Lots of little stuff that adds up just like change between the couch cushions.		
Property Taxes for City Operations and PFA	\$41.1M	\$42.1M
A portion of the taxes home owners pay for their house, and smaller than you might think, becomes revenue for the City (see next page).		
Proceeds of Issuing Debt	\$13.3M	\$14.4M
This is borrowed revenue that is required to be paid back with interest, based on the details of the loan agreements.		
Property Taxes for Downtown Development Authority (DDA)	\$9.7M	\$9.7M
This portion of the property tax is dedicated to the DDA.		
Licenses and Permits	\$3.4M	\$3.6M
These are things like the licenses required to run a business in Fort Collins and a building permit, required when getting a roof repaired from hail damage.		
Interest on Investments	\$16.6M	\$16.5M
The City keeps money in bank accounts where it can earn interest, just like with some checking accounts.		
Other Taxes	\$5.5M	\$5.6M
Examples include lodging tax paid when visitors come to Fort Collins and stay overnight in a hotel.		
Total	\$900.5M	\$873.9M

LARIMER COUNTY PROPERTY TAX BREAKDOWN

As shown on the General Fund revenue chart, Property Tax is an important source of revenue. However, many people may not know that the City of Fort Collins actually receives only 10.5% of the total Property Tax collected and of that amount the City contributes two-thirds of it to the Poudre Fire Authority (PFA). Thus, only 3.5% of Property Tax directly pays for City operations.

UTILITY RATE CHANGES

The bar chart below shows the City of Fort Collins electric rates compared to other Colorado utilities who serve over 7,500 customers. The green bar in the graph represents the cost based on the 2024 average rates; the orange bar represents the cost after the 2025 rate increase.

- Colorado Utilities with more than 7,500 residential meters
- Source: Colorado Association of Municipal Utilities, January 2024 data
- Not all cities have their own electric utility.

EXPENSES – WHERE DOES THE MONEY GO?

Citywide expenses are shown in the chart below. These costs are necessary to provide the programs and services funded in the budget.

	2025	2026
Services Purchased from External Businesses, including Local	\$277.7M	\$262.5M
Employee Pay and Benefits	\$232.0M	\$243.2M
Energy Purchased from Platte River Power Authority	\$116.3M	\$123.7M
Capital, Including Land, Buildings, Vehicles, Large Machinery, etc.	\$108.2M	\$63.7M
Internal Payments Between City Departments*	\$96.7M	\$72.2M
Debt Service	\$47.0M	\$55.6M
Other Supplies	\$32.6M	\$34.3M
Other Expenses	\$21.1M	\$21.1M

* Internal Payments Between City Departments are also called Transfers, which is like moving dollars from one bucket of money to another. The most common example is the contribution from the General Fund to other City funds to help pay for their programs and services.

The bar charts below displays how the budgeted expenses are spread across the City’s seven Outcomes. The colored portion of each bar represents the amount specific to the General Fund, which is the bucket of money with the least restrictions on how it can be spent.

TOTAL EXPENSES BY OUTCOME

2025 **\$725.4 MILLION***

2026 **\$686.6 MILLION***

*In addition to the seven Outcomes, the total allocation by results also includes \$206.3M in 2025 and \$189.6M in 2026 for items like transfers between funds, debt service, payments to retirees and insurance costs.

The General Fund is the bucket of money with the least restrictions on how it can be used. An example of such a restriction is the Golf Fund where the revenue from rounds of golf can only be spent on golf-related expenses.

The City has the most choices in how to budget General Fund money. For 2025-2026, the cost to provide City programs, services and operations is shown in the following pie chart.

2025-2026 GENERAL FUND EXPENSES

	2025	2026
Employee Pay and Benefits	\$104.4M	\$109.2M
Services Purchased from External Businesses, including Local	\$74.3M	\$73.0M
Internal Payments Between City Departments *	\$47.5M	\$49.9M
Other Supplies	\$8.0M	\$8.2M
Other Expenses	\$6.7M	\$6.9M
Capital, Including Land, Buildings, Vehicles, Large Machinery, etc.	\$6.5M	\$4.4M

* Internal Payments Between City Departments are also called Transfers, which is like moving dollars from one bucket of money to another. The most common example is the contribution from the General Fund to other City funds to help pay for their programs and services.
