June 26, 2024

Honorable Mayor, Members of City Council, Residents and Customers of the City of Fort Collins, Colorado:

We submit, for your information and review, the Annual Comprehensive Financial Report for the City of Fort Collins, Colorado (the City), for the year ended December 31, 2023.

This report consists of management’s representations concerning the finances of the City of Fort Collins. Consequently, management assumes responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, based upon a comprehensive framework of internal control it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance the financial statements are free of any material misstatements. To the best of our knowledge and belief, the enclosed information is reported in a manner designed to present fairly the financial position and activities of the various funds of the City. The City has included all disclosures necessary to enable the reader to gain an understanding of the City’s financial activities.

The City Charter and State law require an annual audit by independent certified public accountants selected by the City Council. The goal of the independent audit was to provide reasonable assurance the financial statements of the City for the fiscal year ended December 31, 2023, are free of material misstatement. The independent accountant, Plante & Moran, PLLC, concluded, based upon the audit, there was a reasonable basis for rendering an unmodified opinion that the City’s financial statements for the fiscal year ended December 31, 2023, are fairly presented in conformity with accounting principles generally accepted in the United States of America.

The independent audit of the financial statements of the City is required to complete the federally mandated “Single Audit” designed to meet the special needs of the federal grantor agencies. The results of the single audit will be published in the Single Audit Report prior to submission in September.

Generally accepted accounting principles in the United States of America require management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A. The City’s MD&A can be found immediately following the report of the independent auditor.

### **Governmental Structure**

The City of Fort Collins, incorporated in 1872, located in north central Colorado, east of the continental divide, and is approximately sixty miles north of Denver. It is the fourth largest city in Colorado with an estimated population of 173,000 as of December 2023. This is nearly 50% of the Larimer County population.

The City provides services that include community planning, general government, police, streets and highways, cultural facilities, parks and recreation, transportation, golf courses, and public utilities. The City’s utilities include electric distribution, broadband internet service, water treatment, wastewater treatment and storm drainage. Fire protection and library services are not provided by the City but instead by Poudre Fire Authority (PFA) and Poudre River Public Library District. The City is the primary financial supporter for PFA.

The City's financial statements include the Downtown Development Authority, Fort Collins Capital Leasing Corporation, General Improvement District No. 1, General Improvement District No. 15 – Skyview and the Urban Renewal Authority. Appropriated budgets are adopted on an annual basis for all funds of the City except custodial funds. The legal level of budgetary control is at the individual fund level, except for capital projects, the URA, and federal and state grants for which the legal level of control is at the project, tax increment financing district, or grant level. For more information on budgetary information please see the Notes section.

The City is a home rule city, organized under provisions of the Colorado Constitution. The City Charter, adopted in 1953, provides for the council-manager form of local government. The voters directly elect the mayor to serve a two-year term. Within districts, voters elect six Council members on a non-partisan basis, to staggered four-year terms. The financial statements, schedules and statistical tables contained in this report include all funds under the control of City Council. The Council is responsible for passing ordinances, adopting the two-year budget and annual appropriations ordinance, appointing advisory board and commission members, and hiring the City Manager, City Attorney, and Municipal Judge. The City Manager is responsible for implementing the policies and ordinances of Council, overseeing the day-to-day operations and appointing service area directors and other staff members.

### **Financial Condition: Economy, Long-Term Financial Planning and Major Initiatives**

The essential economic indicators for the City were strong in 2023. At the end of 2023, the local unemployment rate stood at 2.8%, which compares favorably to the state and national rate of 3.7%. The City relies heavily on sales and use tax revenues, which increased by 2.4% in 2023. Sales taxes and use taxes were up 2.5% and up 1.5%, respectively. Inflation slowed to 5.2% increase year over year, compared to an 8% increase the prior period, as measured by the Denver-Aurora-Lakewood Consumer Price Index. Inflation continues adding pressure to the City's budget for operations and capital projects.

Overall governmental activity revenue increased 16.8% in 2023. This was attributable to increases investment earnings, capital grants, charges for service, the aforementioned increase in sales and use taxes, and lodging taxes. The increase was modestly offset by declines in operating grants. Post pandemic market recovery led to significant gains of \$15.9 million for 2023 in comparison to a loss of \$10.1 million the year before. At year-end, the City held \$417 million in unrestricted net position and \$2.2 billion in total net position; \$3.7 million and \$66.9 million more, respectively, than it held in 2022. Please see page 18 for more information about the City's total net position.

Resilient Recovery Plan. In March 2022, Council unanimously adopted the Resilient Recovery Plan to guide long-term response and recovery from the COVID-19 pandemic. The plan includes four themes for recovery as identified by the community through extensive public engagement: Health, Equity & Community Resilience, Economic Recovery and Environmental Resilience. All \$28.1 million of federal American Rescue Plan Act (ARPA) funds received by the City have been allocated to 66 different programs, primarily supporting economic and community recovery. To date, these program is approximately at 50% completion with \$13.4 million spent to date and detailed plans to continue this work into late 2025.

City Give Initiative. In 2019, the City of Fort Collins launched an internal philanthropic initiative that allows the City to respond to strategic priorities and community needs that fall outside the city budget, but are well-positioned for private funding. A transparent, well-developed financial structure of governance policy and fiduciary process upholds the public's trust in our ability to honor donor intent and make meaningful investments in our community. Notably, the completion of a 9-11 Memorial and the comprehensive renovation of a historic Carnegie Library were brought to fruition through the generosity of donors, grantors, and civic partners. In addition to philanthropic revenue for capital construction, the City of Fort Collins receives charitable gifts in support of programming across a wide range of departmental missions and community services.

Voter Approved \$.05 Sales Tax to 2050. As the community continues to grow and long-standing and beloved assets age, so do the costs and number of staff required to effectively maintain their performance and level of service to the community. In 2023, voters approved an additional .5 cent sale tax with targeted objectives. Half of the funds received will provide support for the upkeep and refresh of parks and recreation facilities, a quarter will fund our progress towards the 2030 renewable and 2050 carbon neutrality goals, and the remaining funds will provide needed infrastructure and equipment upgrades in transit services.

Fort Collins Connexion Internet Service. In June of 2018 after multiple years of analysis of alternatives, third-party consulting, community outreach, voter-approved charter amendments, and other due diligence, the City issued bonds raising \$142.2 million to fund the construction of a municipally-owned high-speed fiber optic internet distribution utility. The City launched the Connexion brand in June 2018 and broke ground on its new utility in November 2018. Customers were first connected to the network in August of 2019. Primary network construction continued through 2023 and new customer agreements secured a 37% residential take rate. The end of 2023 marked four years of municipal broadband service through Fort Collins Connexion. Though Connexion has completed the primary network buildout, focus has shifted toward providing service to multi-dwelling units which make up 40% of Fort Collins premises. To support these provisioning efforts and to help fund the higher installation counts, Connexion secured an additional \$22.2 million in proceeds through a follow-on bond offering during 2023.

### **Other Information**

Certificate of Achievement for Excellence in Financial Reporting. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Fort Collins for its comprehensive annual financial report for the year ended December 31, 2022. This was the 37th consecutive year that the City has achieved this prestigious award. In order to earn a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual report. This report must satisfy both applicable legal requirements and accounting principles generally accepted in the United States of America. A reproduction of the Certificate of Achievement is included at the end of the introductory section of the comprehensive annual financial report. A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the requirements of the Certificate of Achievement Program and we will submit it to the GFOA to determine its eligibility for another certificate.

Acknowledgments. We recognize the dedicated efforts of all officials and staff involved in managing and accounting for the City's financial operations. The process of financial planning, management, and accounting requires a team effort by City Council and City staff to be successful. The preparation of this 2023 Comprehensive Annual Financial Report was made possible by the dedicated service of the entire Finance Service Area. We would like to recognize the members of the Accounting Department who worked many extra hours to ensure the completion of this document and fulfill other financial responsibilities over the past few months. We also thank Plante & Moran, PLLC, the firm that serves as the City's external auditor.

Respectfully submitted,

Kelly DiMartino

## **Independent Auditor's Report**

To the Honorable Mayor and Members of City Council  
City of Fort Collins, Colorado

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Fort Collins, Colorado (the "City") as of and for the year ended December 31, 2023 and the related notes to the financial statements, which collectively comprise the City's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of December 31, 2023 and the respective changes in its financial position and, where applicable, its cash flows thereof, and the budgetary comparisons for the General Fund and each major special revenue fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the City and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

To the Honorable Mayor and Members of City Council  
City of Fort Collins, Colorado

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Other Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The other supplementary information and Local Highway Finance Report are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and Local Highway Finance Report are fairly stated in all material respects in relation to the basic financial statements as a whole.

#### ***Other Information***

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the introductory section, statistical section, and other schedules but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

To the Honorable Mayor and Members of City Council  
City of Fort Collins, Colorado

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements or whether the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 29, 2024 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Plante & Moran, PLLC". The signature is written in a cursive, flowing style.

# MANAGEMENT'S DISCUSSION & ANALYSIS

MANAGEMENT'S  
DISCUSSION & ANALYSIS

THIS PAGE INTENTIONALLY LEFT BLANK

# MANAGEMENT'S DISCUSSION AND ANALYSIS

The City of Fort Collins (the City) offers the readers of the City's financial statements this narrative overview and analysis of the financial activities for the year ended December 31, 2023. In addition to this overview and analysis based on currently known facts, decisions and conditions, the City would encourage readers to consider the information presented in the City's letter of transmittal and the City's financial statements, which begin on pages 3 and 29 of this report, respectively.

## Financial Highlights

The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at December 31, 2023 by \$2.2 billion (net position). Of the net position balance, \$417.1 million is unrestricted and is available to meet the government's ongoing obligations in accordance with the City's fund designations and fiscal policies.

The City's net position increased by \$66.9 million (3.2%). The governmental net position increased by \$47.1 million (3.9%) and the business-type position increased by \$19.7 million (2.2%).

The General Fund, the City's primary operating fund, ended 2023 with a \$77.3 million fund balance, a decrease of \$8.8 million on a current financial resource basis. Of this amount, \$74.7 million is spendable.

The City's total long-term liabilities net of compensation and benefit obligations, increased by \$69.3 million (27%) during the current year. Within that activity, the City's governmental long-term liabilities decreased by \$15.2 million and business-type long-term liabilities increased by \$84.4 million.

## Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of the following three components: 1) Government-wide Financial Statements, 2) Fund Financial Statements and 3) Notes to the Financial Statements. Other supplementary information is also included at the end of the report.

Government-wide financial statements. The government-wide statements are designed to provide readers with a broad overview of the City's finances using the accrual basis of accounting, the basis of accounting used by most private-sector businesses.

The statement of net position presents information on the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources is reported as net position. Over time, increases and decreases in net position may provide an indication of whether the City's financial position is improving or deteriorating.

The statement of activities presents information reflecting how the City's net position has changed during the fiscal year just ended. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, cultural, parks, recreation, and natural areas, planning and development services, transportation, and interest on long term debt. The business-type activities of the City include electric and telecommunications, water, wastewater, storm drainage, and golf. The government-wide financial statements also include the Fort Collins, Colorado Downtown Development Authority (DDA) as a discretely presented component unit of the City. See Note I. A in the notes to the City's financial statements (page 54) for more details regarding the DDA and its relationship to the City.

Fund Financial Statements. Traditional users of the City's financial statements will find the fund financial statement presentation more familiar. The focus is now on major funds rather than fund types.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. A major fund should generally meet both of the following criteria: 1) total

assets, deferred inflows of resources, liabilities, deferred outflows of resources, revenues, or expenditures/expenses are at least 10% of the corresponding total (assets, liabilities, etc.) for that fund type (i.e., governmental or enterprise funds) and 2) total assets, deferred inflows of resources, liabilities, deferred outflows of resources, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5% of the corresponding total for all governmental and enterprise funds combined. For presentation purposes, there are funds we have included as major funds that we exercised some level of discretion to increase transparency even if they do not qualify formulaically as a major fund.

The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All City funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to report those same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide statements, the fund financial statements are prepared on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available, and expenditures are recognized when the related fund liability is incurred, except for long-term debt and similar long-term items which are recorded when due. Therefore, the focus of the governmental fund financial statements is on near-term inflows and outflows of spendable resources as well as on the balance of spendable resources available at the end of the fiscal year.

Since the focus of the governmental funds is on near-term resources, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. To facilitate this comparison, reconciliations are provided for both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balances.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Transportation Fund, Urban Renewal Authority Fund, and the Capital Projects Fund. These four funds are major funds. Data from the other governmental funds is combined into a single, aggregated presentation. Individual fund data for each of these non-major funds is provided in the form of combining statements located within the supplementary information following the notes to the financial statements.

The City adopts an annual appropriated budget for all its governmental funds. A budgetary comparison statement has been provided to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 31-40 of this report.

Proprietary funds. The City maintains two different types of proprietary funds, enterprise and internal service funds. The proprietary fund financial statements are prepared on the accrual basis of accounting. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its electric and telecommunications, water, wastewater, storm drainage and golf operations. Internal service funds are accounting devices used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for employee benefits provided by the City, its communications system, its fleet of vehicles and its self-insurance programs. These services predominantly benefit the governmental rather than business-type functions. As such, they have been included within the governmental activities in the government-wide financial statements. The activity in the Equipment Fund used for monitoring the fleet of vehicles is allocated between the governmental and business-type activities based upon actual usage. In addition, the utilities use an internal service fund to account for customer and administrative services. Because this fund is used solely by the utilities, it is included within the business-type activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Electric and Telecommunications, Water, Wastewater and Storm Drainage enterprise funds are considered major funds and are therefore presented separately within the proprietary fund financial statements. The Golf Fund is presented as a non-major enterprise fund. All internal service funds are considered non-major funds and therefore are combined into a single, aggregated presentation in the proprietary fund statements. Individual fund data for each of the non-major proprietary funds is provided in the form of combining statements located within the supplementary information following the notes to the financial statements.

The City adopts an annual appropriated budget for all its proprietary funds. A budgetary comparison statement has been provided to demonstrate compliance with this budget.

The basic proprietary fund financial statements can be found on pages 42-47 of this report.

Fiduciary funds. The City maintains two different types of fiduciary funds, trust, and custodial funds. The fiduciary fund financial statements are prepared on the accrual basis of accounting.

The fiduciary funds are used to account for resources held by the City in a trustee capacity or as an agent for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The City reported assets, liabilities, and changes in net position for (1) Pension associated with City's General Employees' Retirement Plan Pension Fund plan and (2) Custodial Funds, representing fiduciary activities not held in a trust, including discretely presented Investment Pool Funds, all associated with fiduciary activities with other governmental organizations.

The funds underlying each of the fiduciary fund types are combined into a single, aggregated presentation in the fiduciary fund statements. Individual fund data for each of the fiduciary funds is provided in the form of combining statements located within the supplementary information following the notes to the financial statements. Aside from the General Employees Retirement Plan Trust fund, the City does not adopt an annual appropriated budget for its fiduciary funds. A budgetary comparison statement for the General Employees' Retirement Plan Trust fund has been provided to demonstrate compliance with the budget.

The basic fiduciary fund financial statements can be found on pages 48-49 of this report.

Notes to the Financial Statements. The notes to the financial statements are considered an integral part of the basic financial statements since they provide additional information needed to gain a full understanding of the data provided in both the government-wide and fund financial statements. The notes to the financial statements can be found on pages 53-101 of this report.

Other Information. The City has elected to use the modified approach to account for and report its street infrastructure capital assets. The City has included required supplementary information that explains the modified approach and recent assessments that have been performed using the related asset management system. Information about the City's pension plan is also included as required supplemental information. These schedules can be found on pages 103-107 of this report.

Combining Statements. The combining statements referred to earlier in connection with the non-major governmental funds, non-major enterprise fund, internal service funds, fiduciary funds, and the component unit funds are presented following the required supplementary information. In addition, budget statements for the Capital Projects Fund and the major enterprise funds are also presented following the required supplementary information.

## Government-Wide Financial Analysis

### Statement of Net Position

The following table reflects the condensed Statement of Net Position.

#### Statement of Net Position

as of December 31

(amounts expressed in thousands, totals may not add due to rounding)

	Governmental Activities		Business-type Activities		Total Primary Government	
	2023	2022*	2023	2022*	2023	2022*
Current and other assets	\$416,377	\$399,178	\$345,524	\$242,958	\$761,901	\$642,136

\* 2022 has not been restated for the implementation of GASB Statement No. 96.

For more detailed information see the Statement of Net Position on page 31 of this report.

By far, the largest portion of the City's net position, \$1.7 billion (77%) is invested in capital assets (e.g., land, buildings, machinery, equipment, and lease assets), less any debt used to acquire those assets that is still outstanding. Net investment in capital assets increased by \$47.4 million (2.9%) in 2023. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position, \$93.6 million (4.3%), represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position, \$417.1 million (19.1%), may be used to meet the City's ongoing obligations to its citizens and creditors.

The City's total net position increased by \$66.9 million in 2023. Unrestricted net position increased \$3.7 million in 2023.

Changes in Net Position. The following table reflects a condensed summary of activities and changes in net position.

**Statement of Activities & Changes in Net Position**

as of December 31

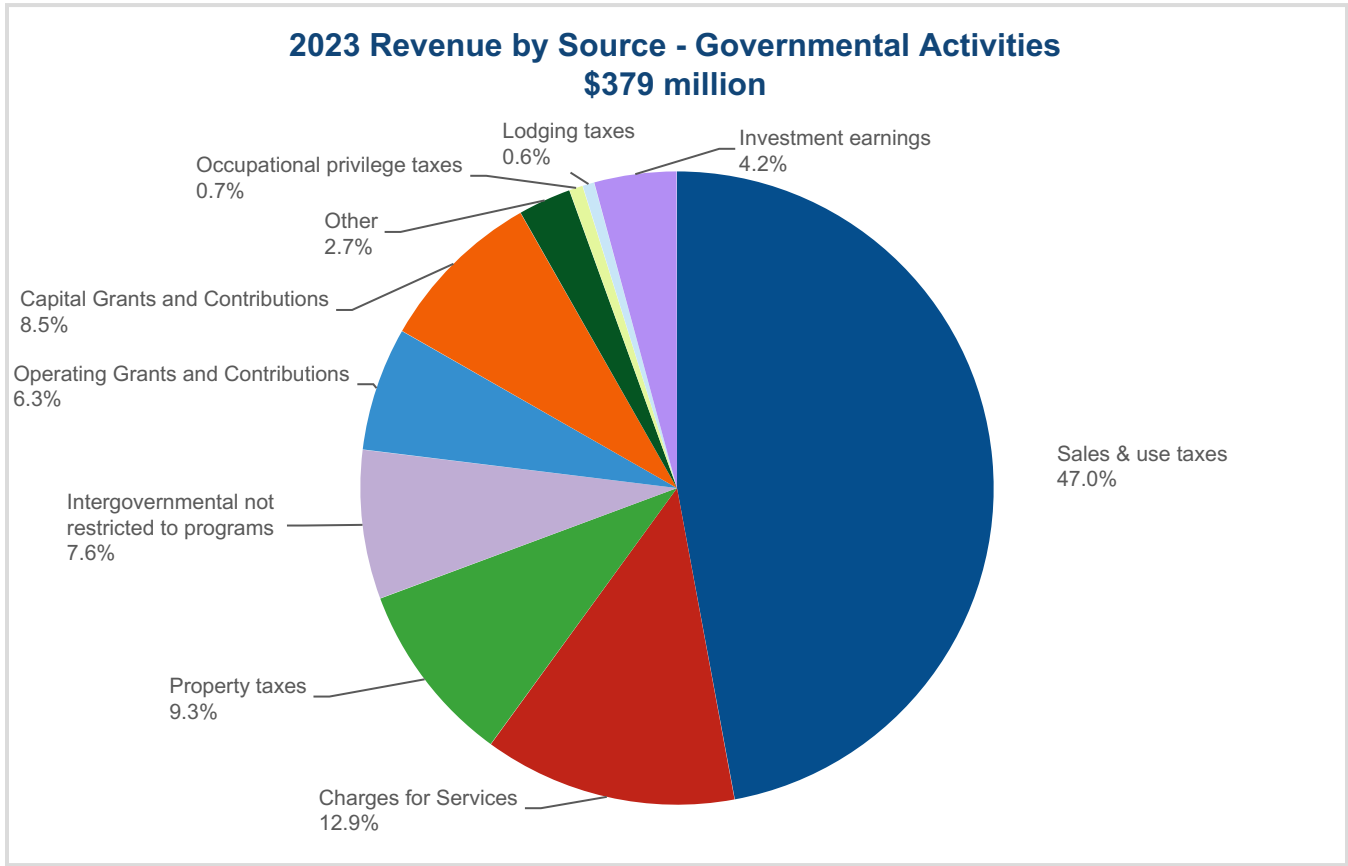

(amounts expressed in thousands, totals may not add due to rounding)

	Governmental Activities		Business-type Activities		Total Primary Government	
	2023	2022	2023	2022	2023	2022

For more detailed information see the Statement of Activities on pages 32-33 of this report.

The above condensed summary of the City's governmental and business type activities for the period ended December 31, 2023, reflects net position increasing by \$66.9 million (3.2%). The prior period is also included for comparative purposes. In addition, revenue and expense graphs have been presented on pages 20-21 to enhance the reader's understanding of the current year activities.

Governmental Activities:

Business-type Activities:

Governmental activities. Governmental activities increased the City's net position by \$47.1 million, accounting for 70.5% of the City's \$66.9 million overall increase in net position. Factors contributing to the change are described below.

In 2023, Sales and Use taxes increased \$4.3 million (2.4%) and Lodging taxes increased \$0.4 million (20.6%). Property taxes increased \$0.1 million (2.3%).

The City received an increase in program revenue through operating grants and contributions from the Coronavirus Local Fiscal Recovery Fund – America Rescue Plan Act (ARPA) in the amount of \$28.1 million, of which \$8.3 million was recognized as revenue in 2023. Additionally, the City has served as a subrecipient in executing qualifying recovery programs on behalf of other ARPA award recipients, putting \$2.5 million in additional program dollars to work in our community. These monies are Federal awards related to COVID-19 and can be found on the Schedule of Expenditures of Federal Awards (SEFA).

ARPA grant revenue funded a broad range of core governmental services and community programs totaling \$13.4 million since receiving the grants in 2021. Expenditures to date by focus category include; Equity & Community at \$4.1 million (30.4%), Economic Recovery and Governmental Operations at \$3.7 million (27.6%) each, followed by Health at \$1.4 million (10.7%) and finally, Environmental Resilience at \$5 million (10.7%)

Planning and Development received operating grants in the amount of \$2.6 million. Operating grants benefited the Community Development Block Grant Fund (CDBG), a home ownership assistance program, and the HOME affordable housing program in the amount of \$1.8 million and \$.7 million respectively.

Charges for services increased \$9.9 million (25.5%) as demand for services continues to rise across a variety of programs and activities.

Rising interest rates resulted in investment gains of \$15.9 million, a \$26.0 million increase over the losses from the prior year. The City's investment portfolio is entirely composed of fixed-income securities and cash equivalents.

Expenses of \$334.4 million exceed charges for services, grants, and contributions of \$105.1 million, a difference of \$229.3 million. The remaining \$229.3 million of expense represents the total burden each function places on the City. This amount is covered by general government revenues net of transfer.

Business-type activities. Business-type activities in the utility and golf funds increased the City's net position by \$19.7 million, accounting for 17.9% of the City's \$66.9 million increase in net position. Factors contributing to the change are described below.

Charges for services in business activities totaled \$253.2 million for an increase of \$9.0 million (3.7%) from 2022 to 2023. Electric and Telecommunications revenue increased 6.5% year-over-year with a majority of the change due to continued build-out of the Connexion internet service followed by increased electric rates and consumption. Water revenue decreased -8.2% compared to 2022 as consumption was down across all customer segments. Wastewater revenue increased 3.2% from 2022 due to increased commercial and industrial demand. Storm drainage revenue increased by \$1.0 million (5.6%) with a small increase in demand for both residential and commercial segments.

Other Utility revenues decreased by \$5.2 million in 2023. Capital Grants and Contributions make up \$5.2 million of the decrease, and the remaining \$38 thousand coming from Operating Grants and Contributions as a result of normal fluctuations in projects.

Business-type expenses totaled \$253.0 million in 2023, an increase of \$7.7 million compared to 2022. Electric and Telecommunications, Wastewater, and Storm Drainage experienced increases of 4.5%, 4.1%, and 12.9% respectively. Increases primarily driven by inflationary pressures in energy cost, labor, equipment and supplies. Water expenses decreased 7.6% demand decreased year over year in all three segments compared with 2022.

## Financial Analysis of the City's Funds

As noted previously, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. Unrestricted fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

On December 31, 2023, the total Governmental fund balances were \$232.9 million, a increase of \$9.7 million (4.4%) compared to the prior year. Of total fund balance, \$2.7 million is non-spendable, \$93.6 million restricted, \$57.9 million committed, \$74.4 million assigned, and \$4.4 million is unassigned. The explanations for these restrictions are contained in the Notes to the Basic Financial Statements, section III. F on page 88.

The **General Fund** is the chief operating fund of the City. On December 31, 2023, the total fund balance was \$77.3 million. The spendable fund balance was \$74.7 million. The General Fund decreased \$8.8 million in 2023 compared to a decrease of \$1.1 million in 2022. The decrease is driven primarily by an increase of \$17.1 million in expenditures across core services, offset in part by investment gains associated with rising interest rates.

The **Transportation Services Fund** is another major governmental fund of the City. On December 31, 2023, the total fund balance was \$13.8 million, all of which is spendable. This is an increase of \$0.9 million over 2022.

The **Capital Projects Fund** is used to account for financial resources to be used for the acquisition or construction of major capital facilities. The fund experienced a net decrease of \$8.4 million which resulted in a December 31, 2023 fund balance of \$(0.5) million. Grant receivables of approximately \$4.5 million account for more than half of the decrease. The largest capital project expenditures (expressed in millions) are shown in the table below.

<b>Capital Project Description</b>	<b>Current Year Spending</b>	<b>Life to Date Spending</b>
S Timberline, Stetson and Trilby	\$5.3	\$7.2
Laporte Avenue Bridge	4.2	4.7
Carnegie Renovation	3.3	3.5
College & Trilby Intersections	3.1	4.5
Laporte Multimodal	1.1	1.1
ADA Pedestrian Sidewalk Improvements	1.0	7.6

The **Urban Renewal Authority Fund** has the primary purpose of blight remedy by stimulating and leveraging private capital investment using tax increment financing in private development projects and public improvement projects. The December 31, 2023, fund balance was \$8.8 million. The fund increased \$2.8 million over 2022 due to Tax Increment Funding (TIF) monies that are collected through increased property tax collections.

Proprietary funds. The City’s proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The unrestricted net position balances and the growth in net position of the City’s proprietary funds (including the major enterprise funds) are reflected in the following table.

**Change in Net Position - Proprietary Funds**

(amounts expressed in thousands, totals may not add due to rounding)

Proprietary Funds	Unrestricted Net Position 12/31/2023	Change in Net Position 12/31/2023
Electric and Telecommunications	\$ 57,418	\$ (1,956)
Water	76,053	1,750
Wastewater	47,314	2,396
Storm Drainage	36,231	5,184
Total of Major Enterprise Funds	217,016	7,374
Other Enterprise Fund - Golf	3,423	187
Total Enterprise Funds	220,439	7,561
Internal Service Funds	47,164	22,782
Total Proprietary Funds	\$ 267,603	\$ 30,343

The Electric and Telecommunications Fund is used to account for the combined operations of the City’s electric and internet telecommunications utility. On December 31, 2023, the total net position of the fund was \$209.8 million, of which \$57.4 million was unrestricted. The total net position decreased by \$2.0 million over 2022. This was primarily driven by capital contributions of \$5.0 million offset by non-operating expenses of \$3.5 million. The non-operating expenses decreased by \$3.3 million over 2022 due primarily to investment gains of \$2.3 million. Capital contributions decreased \$3.7 million from 2022.

The Water Fund is used to account for the operation of the City’s Water utility. On December 31, 2023, the total net position of the fund was \$342.5 million, of which \$76.1 million is unrestricted. The total net position increased by \$1.7 million over 2022. This is driven primarily by increased investment earnings of \$8.4 million over 2022.

The Wastewater Fund is used to account for the operation of the City’s Wastewater utility. On December 31, 2023, the total net position of the fund was \$200.3 million, of which \$47.3 was unrestricted. The total net position increased by \$2.4 million over 2022. This is primarily due to investment earnings of \$.5 million over 2022.

The Storm Drainage Fund is used to account for the operations of the City’s Storm Water utility. On December 31, 2023, the total net position of the fund was \$176.5 million, of which \$36.2 million was unrestricted. The total net position increased \$5.2 million over 2022, primarily driven by investment earnings.

### General Fund Budgetary Highlights

Detailed information about the General Fund budget can be found on the General Fund Actual and Budget statement on page 38 comparing the actual, original and final budget of programs. These programs relate to budgeted lapsing expenditures and use the fund level of budgetary control.

The final budgeted lapsing program expenditure appropriations were \$24.4 million higher than the original budget lapsing program appropriations. Revision to budget revenue appropriations are generally a product of unanticipated grant revenues and/or self-funded projects being appropriated. Major revisions to lapsing appropriations are summarized below:

The 2023 ordinances created new budget appropriations for a broad range of programs including; \$10.7 million for the purchase of the Hughes property, \$3.6 million for purchase orders that were carried forward from 2022, \$2.7 million for police services initiatives and various grant and donation programs including \$0.5 million in philanthropic support.

The variance between actual lapsing program expenditures and the final budget amounted to \$10.5 million (4.3%) less than budget. Total lapsing expenditures of \$236 million were \$28.9 million (14%) higher than in 2022.

The decreased expenditures versus budget in the general fund were primarily in the following service areas; \$2.4 million less than budget was spent in both planning, development and transportation services, and sustainability services. \$1.7 million less than budget was spent on information and employee services and police services expenditures were \$1.5 million less than budget.

The City expects to maintain its solid financial condition by continuous control over expenditures and through the evaluation of viable options for diversifying revenues.

Capital and Lease Assets and Debt Administration

Capital and Lease Assets. The City’s investment in capital assets for its governmental and business-type activities as of December 31, 2023, amounted to \$1.9 billion (net of accumulated depreciation). This was an increase of \$51.1 million (2.8%) This investment in capital assets includes land, water rights, buildings and improvements, machinery, equipment, and light and power, water, wastewater, and storm drainage infrastructure as well as street system infrastructure.

The City has elected to use the modified approach for infrastructure reporting of its street system infrastructure. The City utilizes a third party to perform comprehensive pavement condition surveys every 3 years, and supplements this data with detailed annual maintenance records as inputs for calculating the annual pavement condition index rating. The calculations adhere to American Society for Testing and Materials (ASTM) standards for roads and parking lots established in 1999 (D6433-20). Results of the the most recent assessment were published in January, 2024 using survey information from 2021 and detailed maintenance records from 2022 and 2023. The result is a Pavement Condition Index (PCI) rating of 72.8. It met the City’s policy of achieving a good (Level of Service B) rating. For 2023, the City spent \$17 million on its street maintenance program as compared to \$18.9 million budgeted. The budget equating to the asset management system estimate needed to maintain streets at Level of Service B. For more detailed information, see the Required Supplementary Information on pages 103-107 of this report.

**Capital Assets Net of Depreciation**

as of December 31

(amounts expressed in thousands, totals may not add due to rounding)

	Governmental		Business-type		Total	
	Activities		Activities		Primary Government

Major capital improvements during this fiscal year included the following:

**Governmental Activities**

S. Timberline, Stetson and Trilby	\$	5.3 million
Laporte Avenue Bridge		4.2 million
Carnegie Renovation		3.3 million
College & Trilby Intersections		3.1 million
Laporte Multimodal		1.1 million
ADA Pedestrian Sidewalk Improvements		1.0 million

**Business Activities**

Light & Power Fund	\$	22.3 million
Water Fund		13.1 million
Stormwater Fund		4.5 million
Wastewater Fund		7.4 million
Utility CS&A Fund		1.5 million

Additional information on the City’s capital assets can be found in Note III.C on pages 73-74 of this report.

Long-term debt. At the end of the current fiscal year, the City had total debt outstanding of \$302.3 million (bonds, certificates of participation, financed purchases, etc.). This was an increase of \$104.0 million compared with 2022, with the issuance of additional revenue bonds supporting utility infrastructure projects as the primary driver. Of the outstanding amount, \$242.6 million represents bonds secured by specified revenue sources. The remaining \$59.7 million represents debt primarily secured by facilities or equipment being financed by certificates of participation, assignment of lease payments or other collateralized financial arrangements.

**Outstanding Debt**

as of December 31

(amounts expressed in thousands, totals may not add due to rounding)

**RECONCILIATION OF THE BALANCE SHEET OF  
GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION  
DECEMBER 31, 2023**

Amounts reported for governmental activities in the statement of net position (page 31) are different because:

Total fund balances - governmental funds (page 34)	<b>\$ 232,864,104</b>
Capital assets of \$1,253,239,034 net of accumulated depreciation of \$258,922,524 used in governmental activities are not financial resources, therefore, are not reported in the funds.	994,316,510
Right to use leased assets used in governmental activities are not financial resources and therefore are not reported in the funds.	
Right to use assets at historical cost of \$1,155,845 less accumulated amortization of \$323,760	832,085
Right to use subscription based IT assets used in governmental activities are not financial resources and therefore not reported in the funds.	
Right to use assets at historical cost of \$1,362,020 less accumulated amortization of \$243,245	1,118,775
City's joint venture equity interest in Fort Collins/Loveland Airport.	14,137,099
Other receivables are not available to pay for current-period expenditures and, therefore, are reported as a deferred inflow of resources in the funds.	6,326,387
Internal service fund allocated to business type activities	30,434,820
Long-term liabilities are not due and payable in the current period and therefore are not reported in funds:	
Bonds payable	(9,025,000)
Certificates of Participation	(35,950,000)
Premium	(2,597,583)
Lease liabilities	(779,452)
Subscription based IT liabilities	(724,772)
Deferred loss on refunding, net of deferred gain	338,664
Interest payable	(167,433)
Compensated absences	(9,414,842)
Net pension liability	(4,399,812)
Claims payable	(353,539)
	<u>(63,073,769)</u>
Deferred inflow of resources, other pension-related items	305,871
Internal service funds are used by management to charge the costs of certain activities to individual funds. Except for the utility customer service and administrative fund, the assets/deferred outflows of resources and liabilities/deferred inflows of resources of the internal service funds are included in the governmental activities in the statement of net position.	40,099,482
Net position of governmental activities (page 31)	<b><u><u>\$ 1,257,361,364</u></u></b>

**RECONCILIATION OF THE STATEMENT OF REVENUES,  
EXPENDITURES AND CHANGES IN FUND BALANCES (DEFICIT) OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED DECEMBER 31, 2023**

Amounts reported for governmental activities in the statement of activities (pages 32-33) are different because:

Net change in fund balances - total governmental funds (page 36)	\$	<b>9,722,693</b>
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays, \$50,065,482, exceeded depreciation, \$20,151,010, in the current period.		29,914,472
The net effect of disposal of capital assets		
Disposal	(596,193)	(596,193)
Right to use lease asset capital outlay expenditures which were capitalized	958,031	
Amortization expense for right to use lease assets	<u>(294,931)</u>	663,100
Right to use subscription based IT asset capital outlay expenditures which were capitalized	1,362,020	
Amortization expense for right to use subscription based IT assets	<u>(243,245)</u>	1,118,775
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.		(3,071,222)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to the governmental funds. However, issuing debt increases long-term liabilities on the statement of net position, so this transaction has no effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items as expenditures in the period when the debt is created. However, these amounts are deferred and amortized in the statement of activities.		
Principal payments	5,385,000	
Debt issued	(8,690,894)	
Amortization of premium and deferred amount of refunding (net)	88,669	
Lease payments	83,851	
Subscription based IT payments	375,736	
Leases Payable Issued	(692,340)	
Subscription based IT payable issued	(1,100,508)	
Interest expense	<u>(9,810)</u>	(4,560,296)
In the statement of activities, certain expenses - compensated absences, other post-employment benefits and pension expense - are measured by the amounts incurred during the year. In the governmental funds, however, expenditure for these items are measured by the amount of financial resources used or due (essentially, the amounts actually paid). These amounts represent the net effect of compensated absences, other post-employment benefits and pension-related amounts on the statement of activities.		
Change in net pension liability	2,241,915	
Change in compensated absences	<u>(1,042,270)</u>	1,199,645
Expenses in Statement of Activities related to City's Equity in Joint Venture		
Change in Non-Capital Equity position in Fort Collins/Loveland Airport		3,518,359
Change in present value of known pollution remediation obligation expense		(72,034)
Change in deferred inflow/outflow of resources, other pension-related items		(1,328,203)
Allocation of internal service fund net position to business type activities		3,133,518
Internal service funds are used by management to charge the costs of certain activities to individual funds. Except for the utility customer service and administrative fund, the net revenue of the internal service funds is reported with the governmental activities.		<u>7,465,541</u>
Change in net position of governmental activities (pages 32-33)	<u>\$</u>	<b><u>47,108,155</u></b>

The notes to the financial statements are an integral part of this statement.

## NOTE I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Fort Collins, Colorado (the City) was incorporated in 1873 and adopted its Home Rule charter in 1913. In 1954, the residents adopted the Council-Manager form of government. The more significant accounting policies reflected in the financial statements are summarized as follows:

### A. Reporting Entity

These financial statements include those of the City (primary government) and organizations for which the City is financially accountable (component units). The following component units are included in the reporting entity: The Fort Collins, Colorado Downtown Development Authority (DDA); City of Fort Collins General Improvement District No. 1 (GID No. 1); the Fort Collins Capital Leasing Corporation (Corporation); the Urban Renewal Authority (URA); and the City of Fort Collins General Improvement District No. 15-Skyview (GID No. 15-Skyview). None of these component units issue their own financial statements. The Fort Collins Tourism Improvement District (TID) was created in 2021, issues independently audited financial statements, and qualifies as a discretely presented component unit. The TID financial information is included in the component unit section for government wide financials on pages 31-33, and component unit combining statements on pages 51-52.

The DDA was created in 1981 by City Council and the electorate. The purpose of the DDA is to promote the public health, safety, prosperity, security, and welfare of its inhabitants. The City appoints and removes all members of the DDA's governing board in addition to issuing debt, adopting budgets, and levying taxes on its behalf. The financial statements of the Downtown Development Authority are included in the reporting entity by discrete presentation.

GID No. 1 was created in 1976 for the construction and installation of parking facilities and street and sidewalk beautification improvements. GID No. 1 is, in substance, the same as the primary government since the City Council serves as the board of directors. As such, it levies all taxes, approves all budgets, and issues all debt on behalf of GID No. 1. Accordingly, its transactions and balances are blended with those of the City. GID No. 1 is presented as a special revenue fund.

The Corporation was created in June 1998 and operates under the provisions of the Nonprofit Corporation Law of the State of Colorado. The Corporation's primary purpose is to provide financing assistance by obtaining land, property and equipment on behalf of the City. The directors are appointed by the City Council and receive no compensation. Its transactions and balances are blended with those of the City. The Corporation is presented as a debt service fund.

The URA was established in 2006. The primary purpose of the URA is to remedy blight by stimulating and leveraging private capital investment, using tax increment financing in private development projects and public improvement projects. The URA is, in economic substance and governance for reporting purposes, the same as the primary government because the City Council serves as a substantial majority of board of directors. Management of the primary government, reporting to elected officials of the primary government, has operational responsibility for the URA and is charged with day-to-day operations. Its transactions and balances are blended with those of the City. The URA is presented as a special revenue fund.

GID No. 15-Skyview was organized in 1997 by Larimer County and was inherited by the City as part of the Southwest Annexation. The mill levy funds are used to maintain the street system for the Skyview Subdivision. GID No. 15-Skyview is, in substance, the same as the primary government since the City Council serves as the board of directors. As such, it levies all taxes, approves all budgets, and issues all debt on behalf of GID No. 15-Skyview. Accordingly, its transactions and balances are blended with those of the City. GID No. 15-Skyview is presented as a special revenue fund.

The Fort Collins Tourism Improvement District (TID) was created in a jointly funded effort with the City and Visit Fort Collins in 2019 to make a tourism and destination master plan. The resulting TID established in late 2021 uses tax revenues to benefit hotels and other lodging businesses; primarily through supplementing revenues to provide services and improvements to increase room night sales. The financial statements of the Downtown Development Authority are included in the reporting entity by discrete presentation.

## **B. Joint Ventures**

The City has joined with other governmental units to form the following joint ventures:

*The Northern Colorado Regional Airport* was created for the purpose of operating a municipal airport for the benefit of the residents of Loveland and Fort Collins. The City provides a small amount of funding for on-going airport construction projects. The City and Loveland each retain a 50% ownership interest in the airport. Separately issued financial statements are available upon request from the Airport Manager.

*North Front Range Metropolitan Planning Organization (NFRMPO)* is an association of local governments that was formed in 1988 in response to local needs and federal transportation and air quality planning requirements. Local government membership consists of elected officials representing Fort Collins, Greeley, Loveland, Evans, Berthoud, Windsor, Timnath, Garden City, LaSalle, Johnstown, Eaton, Milliken, Severance and Weld and Larimer Counties. Membership is also extended to the Colorado Transportation Commission and the Colorado Air Quality Control Commission. The NFRMPO Planning Council appoints its own management and approves its own budget. Separately issued financial statements are available upon request from the Planning Council.

*Poudre Fire Authority (PFA)* was created by an intergovernmental agreement between the City of Fort Collins and the Poudre Valley Fire Protection District. The PFA Board consists of five members: two appointed by City Council, two appointed by the District's Board of Directors and a fifth member appointed by the other four members. The PFA Board appoints its own management and approves its own budget. PFA's continuing existence depends, in part, on funding provided by the City. Separately issued financial statements for PFA are available from its administrative office located at 102 Remington St, Fort Collins, CO.

*Platte River Power Authority (PRPA)* was created by an intergovernmental agreement between the Cities of Fort Collins, Estes Park, Loveland, and Longmont to supply their wholesale electric power and energy requirements. The governing Board of PRPA consists of two members from each municipality. Under Colorado law, PRPA's Board of Directors has the exclusive authority to establish electric rates. The City has contracted for its total electric energy supply from PRPA through December 31, 2040. Separately issued financial statements for PRPA are available from its corporate headquarters located at 2000 E Horsetooth Rd, Fort Collins, CO.

Aside from the Airport (see Note IV, G. 1.), the City does not have an equity interest in any of the joint ventures in which it participates. None of the joint ventures are accumulating financial resources or are experiencing fiscal stress that are expected to create a significant financial benefit or burden on the City in the foreseeable future.

## **C. Jointly Governed Organization**

The City and various governmental entities throughout Larimer County have jointly agreed to establish the Larimer Emergency Telephone Authority (LETA). LETA is a separate legal entity established to provide E-911 telephone service to the residents of Larimer County. The City does not retain an on-going financial interest or responsibility in LETA.

## **D. Undivided Interest**

The City completed construction of the Fort Collins Museum of Discovery (the "Museum") in November 2012 with the partnership of Discovery Center, a Colorado non-profit corporation. In January 2013, in accordance with the partnership agreement, the City granted a shared ownership of the property to Discovery Center. The two entities now jointly operate the museum where visitors from the northern Colorado region and surrounding areas can experience interactive exhibits and educational programs of a broad spectrum of relevant topics. The financial transactions of the City for the Museum are reported as a sub-fund of the General Fund.

## **E. Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. The effect of inter-fund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely primarily on fees and charges for support. Also, the primary government is reported separately from the DDA, a legally separate component unit for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly associated with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Combining statements for the fiduciary funds can be found in the supplementary information section of this document.

## **F. Measurement Focus and Basis of Accounting**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds and the pension trust fund. The custodial funds utilize the accrual basis of accounting but have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met. An allowance for doubtful accounts is maintained for the utility receivables.

Property taxes attach an enforceable lien on the property as of January 1 and are levied on the following January 1. Taxes are payable the following year in one installment made on or before April 30, or in two installments made on or before February 28 and June 15. City property tax revenues certified in December are recorded as receivable and an offsetting deferred inflow of resources.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. As under accrual accounting, expenditures are generally recorded when a liability is incurred. However, debt service expenditures, as well as those related to compensated absences, pension liabilities, and incurred claims and judgments, are recorded only when payment is due. With regard to self-insurance claims and judgments, an additional expenditure may be recorded based on actuarial information.

Property taxes, special assessments, sales taxes, franchise taxes, charges for services, amounts due from other governments and interest associated with the current fiscal period are all considered to be subject to accrual. Other revenue items such as licenses, fines and permits are considered to be measurable and available only when the cash is received by the City; as a result, they are not subject to accrual.

## **G. Financial Statement Presentation**

The accounts of the City are organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred outflows/inflows of resources, fund balance or net position, revenues and expenditures or expenses as appropriate. The various funds are summarized by type within the financial statements.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Transportation Services Fund* is used to account for the revenues used to operate and maintain streets, bridges, traffic controls, and transportation long-term planning.

The *Capital Projects Fund* is used to account for financial resources to be used for the acquisition or construction of major capital facilities.

*URA*, a special revenue fund, is used to account for the tax increment financing for the operations and debt services of the Urban Renewal Authority, a blended component unit.

The City reports the following major proprietary funds:

*Electric and Telecommunications* fund, formally titled in City Code Section 8-77 as the “Light and Power Fund” is used to account for the combined operations of the City’s electric and internet telecommunications utility.

*Water* fund is used to account for the operation of the City’s water utility.

*Wastewater* fund is used to account for the operation of the City’s wastewater utility.

*Storm Drainage* fund is used to account for the operations of the City’s storm water utility.

Additionally, the City reports the following fund types:

*Internal Service* funds are used to account for the City’s fleet maintenance services, technology and communication, self-insurance of employee health care and other employee benefits, and a risk management insurance program. There is also an internal service fund to account for the customer and administrative services provided exclusively to the City’s utility enterprise funds. In the government-wide statements, all internal service funds are reported in the governmental activities except for the Utility Customer Service and Administration Fund, which is reported under the business-type activities. On the government-wide statements, an internal balance reflects total services provided to business-type activities financed by the internal services funds reported as governmental activities.

*Fiduciary* funds are used to account for (1) the pension trust fund, which is the City’s General Employees’ Retirement Plan, a defined benefit pension plan, and (2) custodial funds used to account for cash and investments held by the City on behalf of Poudre Fire Authority and Poudre River Public Library District, as well as fiduciary resources held by the City for other third-parties, specifically other governmental organizations. Combining statements of these funds can be found under Supplementary Information.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are the charges between the City’s utility functions and various other functions. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The water and storm drainage funds also recognize as operating revenue the portion of connection fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

## **H. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

### **Cash and Investments**

The City has stated certain investments at fair value in accordance with GASB Statement No. 72. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is a market-based measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information might be available; for others, it might not be available. However, the objective of a fair value measurement in both cases is the same--that is, to determine the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions. Fair value is an exit price at the measurement date from the perspective of a market participant that controls the asset or is obligated for the liability.

Whenever possible, cash is pooled from the various City funds to enhance investment capabilities and maximize investment income. Investments are made taking into consideration cash flow needs, market conditions, and contingency plans. The City’s investment policies prescribe eligible investments, investment diversification, and maturity and liquidity guidance, which are utilized in managing the investment portfolio.

For purposes of the combined statement of cash flows, the City considers highly liquid investments with a maturity of three months or less when purchased, including external investment pools, to be cash equivalents.

**Receivables**

Accounts receivable are expressed net of allowances for doubtful accounts. The Electric and Telecommunications Fund maintains an allowance of \$405,000, Water Fund maintains an allowance of \$63,000, Wastewater Fund maintains an allowance of \$26,000, and Storm Drainage Fund has an allowance of \$25,000.

Long-term portions of receivables in the governmental fund financial statements are reported and then offset by non-spendable, restricted and committed fund balance reserve accounts to indicate that they are not available or spendable resources.

**Inventories**

Inventories are stated at cost using the first-in, first-out method. The costs of inventory items are recognized as expenditures in governmental funds when purchased and as expenses in proprietary funds when used.

**Inventory of Real Property Held for Resale**

Inventory of real property held for resale generally reflects the cost of raw land for development of affordable housing held by the City’s Land Bank Program in the General Fund. The Downtown Development Authority also holds real property for resale. These assets are carried at the lower of cost or fair value.

**Capital Assets**

Capital assets, which are acquired or constructed, are reported at historical cost in the applicable governmental or business-type activities’ columns in the government-wide and proprietary fund financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$7,500 and an estimated useful life of greater than one year. Donated capital assets are recorded at estimated acquisition value at the date of donation.

Capital assets other than land, construction in progress, water rights, and some intangible property are depreciated. Depreciation is computed using the straight-line method with estimated useful lives as follows:

Buildings .....	10 - 50 years
Improvements other than buildings .....	5 - 50 years
Machinery and equipment .....	5 - 20 years

GASB Statement No. 34 provides for an alternative approach to depreciation for measuring the value of infrastructure assets and the related costs incurred to maintain their service life at a locally established minimum standard. In order to adopt this alternative method, the City has developed an asset management system, which will determine if the minimum standards are being maintained. This measurement would occur every three years at a minimum. The City has elected to use this alternative method for reporting its street infrastructure capital assets.

**Leases**

Leases are defined as the right to use an underlying asset. As lessee, the City recognizes a lease liability and an intangible right-to-use asset in the government-wide and proprietary fund financial statements at the beginning of a lease unless the lease is considered a short-term lease or transfers ownership of the underlying asset. Right-to-use lease assets are measured at an amount equal to the initial measurement of the related lease liability plus any lease payments made prior to the lease term, less lease incentives and plus ancillary charges necessary to place the asset into service. The right-to-use assets are amortized on a straight-line basis over the shorter of the lease term or useful life of the underlying asset. The lease liability is calculated as the present value of the remaining lease payments expected to be paid/received during the lease term.

The City is the lessor for noncancellable leases of buildings and infrastructure. As lessor, the City recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements. Lease receipts included in the measurement of the lease receivable are composed of fixed payments from the lease. At the commencement of a lease, The City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease received, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term. The recognition does not apply to short-term leases, contracts that transfer ownership, leases of assets that are investments, or certain regulated leases.

The City must determine an appropriate discount rate to discount the expected lease receipts to present value. The City uses the municipal market analytics curve for Government, Water, Wastewater, Stormwater, and Golf leases, and the municipal revenue bond curve with AA+ AA AA- ratings for Broadband and Light & Power leases as they closely resemble the City's cost of debt.

The City monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

### **Subscription Based IT Assets**

Subscription based Information Technology (IT) Arrangements are defined as the right to use an underlying subscription based IT software or service. As the subscriber to this arrangement, the City recognizes a subscription liability and an intangible right-to-use subscription asset in the government-wide and proprietary fund financial statements at the beginning of a subscription term in use unless the subscription is considered a short-term arrangement. Right-to-use subscription assets are measured at an amount equal to the initial measurement of the related subscription liability plus any subscription payments made prior to the subscription term in use, less any subscription incentives and plus ancillary charges necessary to utilize the subscribed IT software or service. The right-to-use subscription assets are amortized on a straight-line basis over the the subscription term. The subscription liability is calculated as the present value of the remaining lease payments expected to be paid/received during the lease term.

### **Deferred Outflows/Inflows of Resources**

In addition to assets, the financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City reports deferred outflows/inflows of resources as follows:

*Gain/Loss on Refunding* - In the government-wide and proprietary funds statement of net position, deferred outflows/inflows of resources on refunding represent the difference in the carrying value of refunded debt and its reacquisition price. The difference is amortized and recognized over the remaining life of the old refunded-debt or the new refunding-debt, whichever is shorter.

*Levied for the Following Year* - In the government-wide Statement of Net Position, property tax revenue is reported as a deferred inflow of resources. Taxes are considered earned, recognized as revenues and due on January 1 in the period for which the tax is levied.

*Unavailable Revenues* - Unavailable revenue is reported in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: grants, and parking tickets. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

*Pension-Related Amounts* - In the government-wide and proprietary funds statement of net position, a deferred outflow of resources is reported for the unrecognized items not yet charged to pension expense related to the net pension liability, such as the unamortized portion of the net difference projected and actual earnings on pension plan investments and other differences between expected and actual experience. Deferred outflows/inflows for the net difference between projected and actual investment earnings are recognized over a period of five years.

*Lease-Related Amounts* - When the City is a lessor on a lease agreement, a deferred inflow of resources is recorded for the lease. The deferred inflow of resources is recorded at the initiation of the lease in an amount equal to the initial recording of the lease receivable. The deferred inflow of resources is amortized on a straight-line basis over the term of the lease. Lease related deferred inflows of resources are included in both the government-wide and fund financial statements.

### **Compensated Absences**

The City allows employees to accumulate unused vacation pay and to defer overtime pay by accumulating compensatory leave up to maximum limits. The liability associated with these benefits is reported in the government-wide financial statements. Proprietary fund types accrue such benefits in the period in which they are earned. The average amount used over the previous three years is considered current, the City records usage on a first in, first out basis. A liability for the amount is reported in governmental funds only if they have matured, for example as a result of employee resignations and retirements. Unused sick pay is not recognized as a liability because it does not meet the criteria for accrual.

### **Unearned Revenues**

Unearned revenues are resources that have been received, but not yet earned. Revenue recognition for unearned revenues is deferred until the funds are earned. For the year ended December 31, 2023 governmental funds reported a total of \$18,150,927 and business-type funds reported a total of \$6,863,439 of unearned revenue.

### **Long-Term Obligations**

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are reported as expenses in the period they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

### **Claims and Judgments Payable**

Claims and judgments payable are recognized when it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Such claims, including an estimate for claims incurred but not reported at year end, are reflected as claims payable in the financial statements.

### **Pension**

The net pension liability and net deferred outflows/inflows of resources, pension expense and information about the fiduciary net position of the General Employees' Retirement Plan (GERP) and additions to/deductions from the fiduciary net position has been determined on the same basis as they are reported by GERP. For this purpose, benefit payments are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

### **Fund Balance/Net Position**

GASB Statement No. 54 *Fund Balance Reporting and Governmental Fund Type Definitions* establishes fund balance classifications that comprise a hierarchy based on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in the governmental funds. In the fund financial statements, fund balance of the City's governmental funds is classified as non-spendable, restricted, committed, assigned, or unassigned.

Non-spendable fund balances indicate amounts that cannot be spent such as permanent endowments or assets in non-liquid form. It also includes the long-term amount of advances, loans and notes receivables as well as property held for resale unless the proceeds from the collection of these items would be considered restricted, committed, or assigned in which case they are included in those categories.

Restricted fund balances indicate amounts constrained for a specific purpose by external parties, constitutional provision or enabling legislation.

Committed fund balances indicate amounts constrained for a specific purpose by the City Council, which is the City's highest level of decision-making authority. Amounts are established, modified and rescinded only through a Council approved ordinance. The ordinance must occur prior to year-end; however, the amount can be determined in the subsequent period.

Assigned fund balances indicate amounts the City intends to be used for specific purposes, but do not meet the criteria to be classified as restricted or committed. The City Manager, Chief Financial Officer, and Accounting Director are authorized to assign fund balance as outlined in the fund balance policy.

Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not included in the other classifications. In other funds, the unassigned classification is used to report a deficit fund balance. When unassigned and restricted, committed, or assigned fund balances are available for use, it is the City's policy to use restricted, committed, or assigned resources before unassigned resources.

Refer to footnote III.F for additional detail associated with the fund balance classifications in the City's governmental funds.

In the government-wide and proprietary fund financial statements, net positions are restricted for amounts that are legally restricted by outside parties for specific purposes or through enabling legislation that is a legally enforceable restriction on the use of revenues. When both restricted net position and unrestricted net position are available for use, it is the City's policy to use restricted-net position first and then unrestricted net position. Investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvements of those assets.

### **Minimum Fund Balance Policy**

It is the City's policy to maintain a 60 Day Liquidity Goal minimum unassigned fund balance in the General Fund. Minimum unassigned fund balance should be at least 17% of the subsequent year's originally adopted budgeted expenditures and transfers out, excluding expenditures and transfers out for large and unusual one-time items. The 60 Day Liquidity Goal is in addition to the restricted balance required by Article X, Section 20 of the State Constitution.

### **Inter-fund Transactions**

During the course of operations, the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Furthermore, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

### **Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

### **Discretely Presented Component Units**

The significant accounting policies for the City's discretely presented component unit are substantially the same as the primary government. Additional disclosures follow.

The discretely presented component unit data presented in the government-wide statements includes total data for all fund types of the Downtown Development Authority (DDA), including its General Fund, Debt Service Fund and its non-current assets and liabilities.

The Board of Directors of the DDA approves their respective budget by resolution. The budget is then submitted to City Council for approval. Budgetary matters with respect to basis of accounting and legal level of budgetary control are generally the same for the DDA as those of the City.

### **Adoption of New Accounting Pronouncements**

During the year, the City adopted GASB Statement No. 96, Subscription-Based Information Technology Arrangements. As a result, the governmental activities and business-type activities now include a liability for the present value of payments expected to be made and subscription assets. The subscription assets and liabilities have been added to notes C and E, respectively, as of the beginning of the year. Subscription activity is further described in Note H. There was no impact on beginning net position.

The GASB has issued several statements not yet implemented by the City. City management has not yet determined the effect the statements will have on the financial statements. However, the City intends to implement all standards by the required dates.

## **NOTE II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

### **A. Budgetary Information**

#### **Accounting and Control**

Appropriated budgets are established for all funds of the City except custodial funds, as described below.

##### *General, Special Revenue, and Debt Service Funds*

Budgets for general, special revenue, and debt service funds are not adopted on a basis consistent with generally accepted accounting principles (GAAP). The exceptions to GAAP are appropriations for grants and capital projects that do not lapse until the grant or project is completed.

##### *Capital Project Funds*

Budgets for the Capital Project Funds are not consistent with GAAP because appropriations do not lapse on an annual basis as explained below.

##### *Proprietary Funds*

Proprietary funds are budgeted on a basis that includes capital items such as amounts for capital outlay and principal reduction of debt. Such budgets exclude depreciation, bond amortization, and changes in estimates such as claim reserves or post-employment liabilities. Capital project budgets for certain enterprise funds do not lapse on an annual basis as explained below.

##### *Pension Trust Fund*

The pension trust fund is budgeted on an annual basis and all appropriations lapse at year end.

##### *Custodial Funds*

No budget is established for custodial funds. These funds are held by the City on behalf of another government and do not measure results of operations.

#### **Legal Level of Control**

The legal level of budgetary control is at the individual fund level, except for capital projects, the URA, and federal and state grants for which the legal level of control is at the project, tax increment financing district, or grant level. For budgetary purposes, interfund transfers are considered expenditures.

#### **Lapsing Appropriations**

All appropriations unexpended or unencumbered lapse at the end of the year to the applicable fund, except capital project and grant appropriations which lapse when the project or grant activity is completed. Appropriations which are legally encumbered at year end are carried over to the ensuing year at which time they are matched with their corresponding expenditures.

Budgets for the Capital Projects Fund, special revenue funds with expenditures of a capital or project nature and special revenue funds where the primary source of revenue is project-length grants are non-lapsing. Included are the Capital Projects Fund, Neighborhood Parkland Fund, Conservation Trust Fund, Community Development Block Grant Fund, Home Program Fund, Transit Services Fund, the grant portion of Transportation Services, Community Capital Improvement Program Fund, and the capital project portion of the Keep Fort Collins Great Fund. Budgets are non-lapsing for capital projects in all the enterprise funds and for one of the internal service funds - Utilities Customer Service and Administration Fund.

## Property Taxes

Property taxes levied in a particular year are collected in the subsequent year. The property tax calendar is as follows:

### Tax Year

Tax levy certified to County Commissioners .....	December 15*
County Commissioners certify levy to County Assessor .....	December 22*

### Ensuing Collection Year

Taxes attach as an enforceable lien on property .....	January 1
First installment due date (one-half of taxes due) .....	February 28
Taxes due in full (unless installments elected by taxpayer) .....	April 30
Second installment due date (second half due) .....	June 15

The County Assessor certifies property valuations to the City and the City sets and certifies its mill levy rate with the County, which then bills and collects the property taxes due. These property taxes attach as an enforceable lien on January 1 of the tax year. The taxes are payable in two installments on February 28 and June 15, or in one installment due April 30th in the following year. Taxes are collected by the Larimer County Treasurer on behalf of the City and are remitted by the 10th day of the month following collection. A 2% collection fee is retained by the County as compensation for collecting the taxes.

\*Property tax certification was delayed to January 2024. This delayed the amount due, but not the time of the enforceable lien and therefore the recording and reporting of property tax remains consistent with prior periods.

## B. Deficit Fund Balance

For the year ended December 31, 2023, the Community Development Block Grant special revenue fund had a negative unassigned fund balance in the amount of \$0.004 million. This deficit is caused by expenses being incurred in 2023, however the City did not draw on available Federal grant funds to reimburse these expenses until January 2024. The deficit will be restored when the draw is made on available Federal grant funds.

For the year ended December 31, 2023, the Transit Services fund had a deficit fund balance of \$1.807 million. This deficit is caused by expenses being incurred in 2023, however the City has not been able to draw on Federal grant funds to reimburse these expenses. Federal grants are a significant source of funding for the Transit Services fund, and during 2023 several of those grants were on “pre-award authority” which means that although the City was able to spend against the grant it was not able to draw down on the grants, causing the deficit. The deficit will be restored when the Federal grants are fully executed and draws are made on expenses previously incurred.

For the year ended December 31, 2023, the Capital Projects fund had a deficit fund balance of \$0.518 million. This deficit is caused by spending on capital projects being incurred during 2023, however the reimbursement for this spending from both Federal and State grants was not received until 2024, preventing the reimbursements from being considered revenue during 2023. The deficit will be restored when grant dollars are received in 2024 to cover the 2023 expenses.

## C. Tax Abatements

### Primary Government and Blended Component Units Abatement Agreements

The City has established two major tax abatement programs: (1) manufacturer’s use tax rebates (MUTR) and (2) business assistance agreements for purposes of economic development.

*Manufacturer’s Use Tax Rebate:* The MUTR program is established by City Code Article II – Tax Refund and Rebate Program, section 25-64. Under this code section, the City may refund a portion of use taxes paid by a qualifying manufacturer for manufacturing machinery to be used in the City of Fort Collins directly and exclusively in the manufacture of tangible personal property for sale or profit. Once the taxpayer has completed the application process, the abatement comes in the form of a rebate payment check of taxes previously paid.

The base use tax rate charged is 3.00% of the equipment cost, and rebates are for 1.50% of the first \$5,000,000 in qualifying equipment purchases and 1.00% for purchases from \$5,000,001 and up. The maximum rebate given to any one company is \$2,400,000.

For the fiscal year ended December 31, 2023, the City abated use tax totaling \$61,000, including two abatement agreements that exceeded 10% of the total amount abated under the MUTR program. Woodward, Inc. received a MUTR abatement totaling \$30,428, and Eldon James Corporation received a MUTR abatement totaling \$18,774.

*Business Assistance Agreements:* The City approves primary employer business assistance agreements pursuant to and subject to the terms of Economic Health Financial Policy 9 and authorized by City Council under Resolutions 91-15, 99-23, 2013-025, and 2015-079. This policy applies to requests for direct assistance from primary employers looking to remain or expand their operations in the City, as well as primary employers evaluating relocation to the City.

City Council approves business assistance packages subject to the following criteria: economic impact, contribution to quality of place, alignment with City objectives, natural resource stewardship, and community well-being. All agreements are performance-based including but not limited to annual average wages, number of retained or net new jobs, and/or health care premium assistance.

The types of assistance commonly used are private activity bond financing, manufacturing equipment use tax rebates (separate from the standard MUTR program), and business personal property tax rebates. The maximum allowable property tax rebate will not exceed 50% of the City's portion of the personal property tax rate, and the maximum term is not to exceed 10 years.

Applicants for direct assistance commit to the following at a minimum:

- Pledge to Annual Reporting
- Separate Use Tax Schedule
- Timeline for Confidentiality, no greater than 30 days
- Assurance of Existing Workforce Retention

For the fiscal year ended December 31, 2023, the City abated sales, use, and property tax totaling \$850,082. Abatement recipients exceeding 10% of the total amount abated or that are otherwise deemed material for qualitative reasons were:

---

Project Name	Avago Technologies [Broadcom Limited] Building 4 FBAR Clean Room Facility
Description	Redevelopment of property by retrofitting wafer fabrication facility in 2014, including new 12,160 square foot FBAR Clean Room Facility expansion
Approved Abatement	100% of use taxes paid, up to \$3,882,200. Three rebate applications and seven concurrent annual payments for each application.  50% of personal property taxes paid, up to \$629,100 in total and a limit on each annual payment of \$157,700
2023 Amount	\$42,120
Project Commitment	135 net new jobs created in Fort Collins
Recapture Provisions	City may reduce the amount of any either use tax or personal property tax paid by the percentage shortfall from full compliance

---

Project Name	Foothills Mall Redevelopment
Project Description	Redevelopment of blighted property after decline in sales tax revenue since 2001 of over 61%. Revitalization project costing \$312 million, of which \$53 million was approved in public assistance in the form of City sales tax revenue abatements and Urban Renewal Authority (URA) tax increment financing (TIF).
Approved Abatement	Pledged sales tax increment on General Fund portion (2.25%) of sales tax collections above a sales tax base established in 2013. Increment of 25 years beginning May 1, 2013 and ending April 30, 2038.  Sales tax increment is only paid toward debt service as fifth priority after 1) Mall Metro District Debt Service Mill Levy, 2) Mall Metro District Specific Ownership Taxes, 3) URA Property Tax TIF and 4) Mall Metro District Public Improvement Fee.
2023 Amount	\$850,082
Project Commitment	Developer commits to build parking structure, City-owned and operated recreational facility, ditch relocation for storm drainage, upgrades and improvements to utilities, and construction of a pedestrian underpass linking the District to transit.
Recapture Provisions	Once District debt is paid off, the balances in a supplemental debt service reserve are returned to the City.

---

## NOTE III. DETAILED NOTES ON ALL FUNDS

### A. Deposits and Investments Deposits

Colorado State Statutes govern the City's deposits of cash. The statutes specify eligible depositories for public cash deposits, which must be Colorado institutions and must maintain federal insurance (FDIC) on deposits held.

The Colorado Public Deposit Protection Act (PDPA) requires all units of local government deposit cash in eligible public depositories determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized in accordance with the PDPA. PDPA allows the institution to create a single collateral pool for all public funds to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The fair value of the collateral must be at least 102% of the aggregate uninsured deposits. All deposits in 2023 were in eligible public depositories, as defined by the Public Deposit Protection Act of 1989.

#### *Primary Government*

The carrying amount of the City's deposit accounts as of December 31, 2023, was \$104,382,278. The bank balance was \$100,793,485.

#### *Component Units*

The Downtown Development Authority's undivided share of the City's deposits as of December 31, 2023, was a carrying amount of \$1,407,764. The bank balance was \$1,351,301.

The Tourism Improvement District separately holds its own cash and deposits, and as of December 31, 2023, the balance of cash and cash equivalents \$130,382.

#### *General Employees Retirement Plan (GERP)*

The City held deposits, in fiduciary responsibility for the GERP Pension Trust Fund, \$3,703,103 as of December 31, 2023. The bank balance was \$3,571,294.

#### *Custodial Funds*

The City held deposits, in fiduciary responsibility for other governmental organizations, \$8,228,396 as of December 31, 2023. The bank balance was \$7,936,210.

### **Custodial Credit Risk – Deposits**

For deposits, custodial credit risk is the risk that, in the event of a bank failure, the City's deposits might not be returned. Due to the federal deposit insurance and the collateral no deposits for the City or the component unit were exposed to custodial credit risk.

### **Investments**

Investment policies are governed by the City's own investment policies and procedures. Investments of the City and its discretely presented component unit may include:

- Legal investments for municipalities under state statutes.
- Interest-bearing accounts or certificates of deposit at banks or savings and loans in Colorado which are eligible public depositories (including CDARS).
- Obligations of the United States Government, its agencies or instrumentalities.
- Debt of U.S. corporations having an investment grade rating.
- Obligations issued by or on behalf of the City.
- State or local government obligations having an investment grade rating.
- Prime rated banker's acceptances.
- Prime rated commercial paper.
- Guaranteed investment contracts.
- Repurchase and reverse repurchase agreements of any marketable security described above which afford the City a perfected security interest in such security.

- Local government investment pools authorized under the laws of the State of Colorado.
- Shares in any money market fund or account, unit investment trust or open or close-end investment company, all of the net assets of which are invested in securities described above.
- Mutual funds that include eligible investments found above.

In addition to the above, investments of the GERP may include:

- Equity investments.
- Domestic mutual funds.
- International mutual funds.
- Bond mutual funds.

The City's and its discretely presented component unit's investments are subject to interest rate and credit risk as described below:

### **Interest Rate Risk**

The City's and DDA's investment policy limits its exposure to fair value losses arising from rising interest rates by:

- Whenever possible, holding investments to their stated maturity dates.
- Investing a portion of the operating funds in shorter-term securities, money market mutual funds, or local government investment pools.

Based on the current rate environment, the City assumes certain callable securities may be called on the first call date.

### **Concentration of Credit Risk**

#### *Fixed Income Investments*

The City, including GERP, and DDA places maximum limits on the amount the City may invest in any one issuer. Limits vary by their investment type. And the City and DDA do not hold any equity securities. More than 5% of the City's and DDA's investments are in Federal Home Loan Bank (FHLB), Federal Farm Credit Bank (FFCB), Federal Home Loan Mortgage Corporation (FHLMC) and New York Life Global FDG. These investments were 44.36%, 15.48%, 11.63% and 5.92%, respectively, of the City's total investment.

#### *GERP Mutual Fund Investments*

Investments in mutual funds exceeding 5% of the net position of the plan are as follows: Vanguard 500 Index - 6.7%, Fidelity Low Priced Stock - 6.2%, Fidelity Mid Cap Index Fund - 5.9%, Victory NASDAQ-100 Index Fund - 5.7%, T. Rowe Price International Stock - 5.6%, Vanguard Growth Index - 5.5%, Vanguard Total International Stock Index - 5.4%, Fidelity Contrafund - 5.2%, and Vanguard Mid Cap Index - 5.0%.

### **Custodial Credit Risk for Investments**

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City and DDA will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's and DDA's investment policy restricts holding of securities by counterparties and utilizes a third-party safekeeping arrangement with financial institutions.

## Credit Risk

The City's and DDA's investment policy limits investments in corporate bonds to the top four ratings issued by nationally recognized statistical rating organizations (NRSROs) at the time of purchase. As of December 31, 2023, the City's investment in corporate bonds was rated AA- or better by Standard and Poor's and Aa3 or better by Moody's Investors Service. The City's investment policy also allows for the City to invest in local government investment pools. As of December 31, 2023, the local government investment pools (ColoTrust and CSAFE) in which the City had invested and reported at net asset value (NAV), were rated AAAm, by Standard and Poor's and AAAmf by Fitch ratings respectively. Furthermore, ColoTrust and CSAFE do not have any unfunded commitments, redemption restrictions or redemption notice periods. Information related to ColoTrust can be found on their website, [www.colotrust.com](http://www.colotrust.com). Information related to CSAFE can be found on their website, [www.csafe.org](http://www.csafe.org). The City's investments in US agencies were rated Aaa by Moody's and AA+ by Standard and Poor's.

## Fair Value Measurements

The City categorizes its assets and liabilities measured at fair value within the hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest to Level 3 inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

Information regarding the City's and DDA's fair value, credit risk rating, maturity, and fair value measurement are described below.

Investment prices for the City's and DDA's securities are reported by US Bank, the City's custodial bank. US Bank acquires its pricing data from Interactive Data, a third-party provider, which provides global security evaluations and fair value pricing for fixed income securities. Their evaluations represent a good faith opinion as to what a buyer in the marketplace would pay for a security in a current sale.

Interactive Data's evaluations are based on market data and evaluated pricing models that vary by asset class and incorporate trade, bid and other market information as well as evaluated pricing applications utilizing benchmark curves, benchmarking of like securities, sector groupings, and matrix pricing to prepare evaluations. In addition, model processes such as the Option Adjusted Spread model are used to assess interest rate impacts and develop prepayment scenarios. For each asset class, teams of evaluators gather information from market sources and integrate relevant credit information, perceived market movements, and sector news into the evaluated pricing applications and models.

The City and DDA invests primarily in fixed income securities and Local Government Investment Pools (LGIP). The GERP invests primarily in domestic and international mutual funds, and fixed income securities. The investments are valued at fair value at least monthly.

For the City, DDA, and GERP, the following fair value techniques were utilized in measuring the fair value of its investments.

*Mutual Funds:* The investments are reported at fair value and obtained from the National Association of Securities Dealers.

*U.S. Government Agency and Investment Grade Corporate securities:* U.S. Government Agency securities are reported at fair value based on a multi-dimensional relational model and Option Adjusted Spread model. The model inputs include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and other reference data including TRACE reported trades. TRACE is a program developed by the National Association of Securities Dealers (NASD) which allows for the reporting of over-the-counter transactions for eligible fixed-income securities.

## Investment Pool Funds

The City held \$29,780,736 and \$13,249,752 for Poudre Fire Authority (PFA) and Poudre River Public Library District (PRPLD), respectively, as of December 31, 2023. These amounts are not reflected in the Primary Government investments below and more information on these investments can be found in the separately issued financial statements of PFA and PRPLD.

## Fair Value Presentation of Investments

The City has no other investments meeting the fair value disclosure requirements of GASB Statement No. 72. As of December 31, 2023, the City, Component Unit, and GERP, had the following investments and maturities:

As of December 31, 2023, the City had the following investments and maturities:

Primary Government (excluding Custodial Funds)

Investment Type	Credit Risk Rating S&P/Moody's	Fair Value Measurement Level	Fair Value	Investment Maturities		
				Up to 120 days	121 days to 5 years	More than 5 years
<i>Investments measured by fair value levels</i>						
Instrumentality						
Federal Farm Credit Bank (FFCB)	AA+/AAA	2	\$ 78,117,223	\$ -	\$ 78,117,223	\$ -
Federal Home Loan Bank (FHLB)	AA+/AAA	2	229,543,744	6,946,455	222,597,289	-
Federal Home Loan Mortgage Corporation (FHLMC)	AA+/AAA	2	60,213,123	-	60,213,123	-
Federal National Mortgage Association (FNMA)	AA+/AAA	2	23,438,417	8,917,100	14,521,317	-
Corporate bonds	AA+/AA1	2	11,517,716	-	11,517,716	-
Corporate bonds	AAA/AAA	2	7,502,234	4,490,309	3,011,925	-
Corporate bonds	AA+/AA3	2	14,235,975	-	14,235,975	-
Corporate bonds	AA-/AA3	2	20,345,729	-	20,345,729	-
Corporate bonds	AA+/AA2	2	4,225,574	-	4,225,574	-
Corporate bonds	AA+/AAA	2	56,730,560	7,636,544	49,094,016	-

## Restrictions on Cash and Investments

Cash and cash equivalents as of December 31, 2023 were restricted for the following, excluding GERP:

<b>Fund/Component Unit</b>	<b>Amount</b>	<b>Restriction</b>
Equipment fund	\$ 4,850,932	Unspent lease proceeds
Urban Renewal Authority	1,454,449	Debt service through bond ordinance
Golf	76,913	Debt Service Escrow
General	16,167	Debt Service Escrow
Electrical and Telecommunications	4,087	Debt Service Escrow
Stormwater	3,093	Debt Service Escrow

Amounts within pooled investments as of December 31, 2023 were restricted for the following, excluding GERP:

<b>Fund/Component Unit</b>	<b>Amount</b>	<b>Restriction</b>
Electrical and Telecommunications	\$ 62,564,038	Unspent bond proceeds
Stormwater	40,000,000	Unspent bond proceeds
General	125,000	Udall Donation Endowment

## B. Notes and Leases Receivable

In March 1996, the City entered into an agreement with a developer for the construction of low – income apartment units. Under the agreement, the City loaned \$913,000 to the developer from the HOME Program special revenue fund and received a deed of trust against the property. By an Assignment and Assumption Agreement and a Second Amendment and Loan Extension agreement, both dated May 18, 2017, another developer assumed the original debt obligation and further agreed to pay the City \$1.5 million in principal plus interest. The loan bears interest at 3% per annum. The loan is to be repaid from 50% of the net available cash flow generated by the project as calculated annually. While there is no set payment schedule any unpaid principal balance and accrued interest is to be paid in full as of May 15, 2054. The City has received payments for the accrued interest annually since 2020, with payments made during the year ended 2023 totaling \$29,514. The outstanding balance as of December 31, 2023 is \$1,496,586. The allowance recorded against this receivable is \$1,496,586. Accrued interest on this loan has not been recorded since it is uncertain as to the frequency of when the project will be able to make payments against the note.

The Electric and Telecommunications Fund have certain notes receivable related to efficiencies with customers connected to a Home Efficiency Loan Program. The balance of these loans as of December 31, 2023, is \$5,692,032. There is no allowance for these loans.

The City leases certain assets, primarily buildings and sites for cell phone towers, to various third parties expiring 2024 – 2043. Payments are generally fixed monthly with certain variable payments not included in the measurement of the lease receivable. The City recognizes a lease receivable and a deferred inflow of resources in the financial statements.

At the commencement of a lease, the City measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

The lease receivable as of December 31, 2023, is \$1,430,941. The City recorded deferred inflows of resources for lease revenue related to leasing arrangements that occurred during the year. As of December 31, 2023, the City recorded deferred inflows of resources of \$1,347,527.

During the year ended December 31, 2023, the City recognized lease revenue related to its lease arrangements of \$318,509, and interest revenue of \$53,203.

## C. Capital and Lease Assets

A summary of changes in capital and lease asset activity for the year ended December 31, 2023 follows:

	Beginning Balance	Additions	Transfers	Deletions	Ending Balance
<b>Primary Government:</b>					
<b>Governmental activities</b>					
Capital assets, not being depreciated:

## D. Inter-fund Transfers and Advances

For governmental funds, transfers are primarily used to 1) move revenues from the fund with collection authorization (e.g. Sales and Use Tax Fund) to the General Fund for overall operating expenditures and the Transportation Services, Capital Projects and Natural Areas Fund for dedicated voter approved programs and projects, and 2) move unrestricted General Fund revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grant programs.

For proprietary funds transfers are made to internal service funds to finance overhead and general operations, as well as to several governmental funds to fund various programs and services of benefit to proprietary funds. Internal service funds make transfers to the general fund to finance various programs and services that benefit internal services funds, as well as to other internal service funds for funding of services.

Transfers Schedule:

Transfer out:	Transfers In:							
	General	Transportation	Capital Projects	Nonmajor Governmental	Water	Stormwater	Internal Service	Total

## Advances to URA

In May 2009, the City Capital Expansion Fund and Water Fund loaned the URA a combined \$5,303,939 to help fund the development and construction of the Rocky Mountain Innovation Initiative (RMII) facility for the business incubation program. This loan has a 20-year term and bears a fixed interest rate of 2.5%. For years 0 through 4, there were no payments, but interest accrued. For year 5, there was a lump sum, annual payment consisting of the interest accrued during the no payment term and year 5. For years 6 and 7, there was an annual payment of interest only. For years 8 through the maturity date, there will be annual payments of principal and interest. In 2023, the URA made an interest and principal payment of \$16,594 and \$311,884, respectively. The amount outstanding as of December 31, 2023 is \$346,594 with a 50% share receivable within the Capital Expansion and Water Funds.

## E. Long-term Obligations

The City utilizes various types of debt and other long-term obligations in conducting its business. The following describes the various bonds and other types of financing used by the City and its component unit.

**Revenue Bonds:** The City and component unit issue bonds and notes where income derived from acquired or constructed assets is pledged to pay debt service. As of December 31, 2023, the City had \$9,025,000, \$233,546,032 and \$2,899,151 of revenue bonds outstanding for governmental activities, business-type activities and the DDA component unit, respectively.

Pledged revenue obligations for business-type activities are as follows:

<u>Date Issued</u>	<u>Description</u>	<u>Revenue Pledged</u>	<u>Amount of Revenue Pledged</u>	<u>Purpose of Debt</u>	<u>Term of Commitment</u>
2003	Subordinate Water Revenue Bonds	Water Revenues	\$ 386,609	Water Capital Projects	through 2030
2016	Sewer Revenue Bonds	Sewer Revenues	11,669,670	Sewer Capital Projects	through 2028
2018	Light and Power Revenue Bonds	Light and Power Revenues	192,896,462	Telecommunications System	through 2042
2023	Electric Utility Enterprise Revenue Bonds	Light and Power, and Telecommunication Revenues	104,455,000	Telecommunications System	through 2044
2023	Stormwater Utility Enterprise Revenue Bonds	Stormwater Revenues	60,463,534	Storm Drainage Improvements	through 2043

<u>Date Issued</u>	<u>Description</u>	<u>% Revenue Pledged</u>	<u>P &amp; I for 2023</u>	<u>Recognized for 2023</u>
2003	Subordinate Water Revenue Bonds	1-15%	\$ 187,926	\$ 11,503,972
2016	Sewer Revenue Bonds	1-25%	2,264,700	11,839,086
2018	Light and Power Revenue Bonds	1-30%	9,156,822	30,263,751
2023	Electric Utility Enterprise Revenue Bonds	1-30%	—	30,263,751
2023	Stormwater Utility Enterprise Revenue Bonds	1-25%	—	11,525,948

In 2013, the City issued tax increment revenue bonds for the principal sum of \$11,085,000 to be serviced by the Urban Renewal Authority – North College District. The bond is a special and limited obligation of the City payable solely out of and secured by a pledge of tax increment revenue. The proceeds were received by the URA and were used to pay off advances made by the City for the North College Marketplace, JAX Inc. Building Expansion, Northeast College Corridor Outfall, and the Kaufman and Robinson projects. The outstanding balance as of December 31, 2023 is \$4,945,000.

In 2019, the City issued tax increment revenue bonds for the principal sum of \$4,990,000 to be serviced by the URA Prospect South Tax Increment Financing District. The bond is a special and limited obligation of the City payable solely out of and secured by a pledge of tax increment revenue. The proceeds were received by the URA and were used to pay off advances made by the City for the Summit and Prospect Station developments. The outstanding balance as of December 31, 2023 is \$4,080,000.

In 2013, the City issued a subordinate tax increment revenue bond with a Corporation for the principal sum of \$6,050,000 to be serviced by the DDA. The Bond is not a general obligation of the City and full faith and credit of the City is not pledged to pay the debt service requirements. Principal and interest payments are secured by a pledge of Tax Increment Revenue. In the event the available Pledged Tax Increment Revenues are not sufficient to repay the principal of and interest on the Bond in full during the Tax Increment Period the City has declared the intent to pay any unpaid amounts from legally available funds of the City, subject to appropriation by the Council. The outstanding balance as of December 31, 2023, is \$2,899,151.

**Certificates of Participation:** Through the Fort Collins Leasing Corporation, the City issues certificates of participation (COP) for the acquisition and construction of major capital facilities and improvements. The debt is secured by the constructed facilities and improvements. In the event of default or termination, the trustee has the right to use and possession of the leased property. Debt service payments are made from the rents collected by the Leasing Corporation based upon lease agreements between the City and the Leasing Corporation. As of December 31, 2023, the City had \$38,850,000 of COP outstanding for governmental and \$4,380,000 of COP outstanding for business-type activities.

The DDA paid a portion of the City’s 2017 COP. In 2023, the principal payment was \$300,000.

The City sold certificates of participation in March of 2023 at a par value of \$7,825,000. The monies will be used for 1) the purchase the real property upon which Colorado State University's Hughes Stadium previously existed; and 2) fund miscellaneous additional projects that benefit the inhabitants of the City.

**Financed Purchases:** The City also enters into financing agreements as a lendee for financing the acquisition machinery and equipment for both governmental and business-type activities. The capital assets acquired from the finance agreements are included with capital assets and the depreciation of financed equipment is included with depreciation in the financial statements. These finance agreements have been reflected at the present value of their future minimum lease payments as of the inception date. The City had \$8,518,085 and \$755,310 of financed purchases outstanding for governmental and business-type activities, respectively as of December 31, 2023.

Cost of all capital assets holding on December 31, 2023 acquired under financed purchases:

	<b>Governmental Activities</b>	<b>Business Type Activities</b>
	Balance, End of Year	Balance, End of Year
Buildings and Improvements	\$ 351,930	\$ -
Improvements other than buildings	-	114,030
Machinery and equipment	30,742,785	4,106,672
Accumulated depreciation	(19,933,234)	(2,771,871)
Net Book Value	<u>\$ 11,161,480</u>	<u>\$ 1,448,831</u>

**DDA Short-Term Obligation:** In 2012, a revolving line of credit was established with a bank for a 6-year period in the amount of \$1,000,000 to finance DDA projects and programs in accordance with its approved Plan of Development, the Downtown Plan and the Downtown Strategic Plan. In 2018, the DDA renewed its revolving line of credit in the amount of \$5,000,000 and it renews each year thereafter until 2024. During the fiscal year 2023, total draw amounts were \$6,445,504. During 2023, a total of \$6,445,504 was repaid and there is no amount outstanding as of December 31, 2023. Total interest paid on the loan during 2023 was \$1,498.

**Lease Liability:** The City leases certain assets from various third parties. The City recognizes a lease liability and an intangible right-to-use asset in the financial statements. At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of the lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the shorter of its useful life of the lease term.

The assets leased include buildings and improvements, land, machinery and equipment, rights of way, and copy machines. Payments are generally fixed monthly with certain variable payments not included in the measurement of the lease liability. Variable payments generally relate to operating costs of the leased item and were not included in the calculation of the right-to-use asset. Lease assets are reported with other capital assets on the statement of net position. Lease asset activity of the City is included in Note C – Capital Assets.

The City monitors changes in circumstances that would require remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

As of December 31, 2023, the City had an outstanding liability for all its leases of \$891,051.

**Subscription Based IT Assets Liability:** The City has access to subscription based arrangements for IT software and services and intangible assets from various third parties. The City recognizes a subscription liability and an intangible right-to-use subscription asset in the financial statements for these subscription based IT arrangements. When the subscription of the arrangement begins, the City initially measures the subscription liability at the present value of payments expected to be made during the terms of subscription. Subsequently, the subscription liability is reduced by the principal portion of the subscription payments made. The related intangible subscription asset is initially measured as the initial amount of the subscription liability, adjusted for payments made at or before the subscription arrangement term commencement date, plus certain initial direct costs. Subsequently, the intangible asset for the IT services is amortized on a straight-line basis over the subscription term.

The subscription based IT assets include software and access to IT services utilized by City operations or to provide services to inhabitants of the City. Payments are generally fixed monthly with certain variable payments not included in the measurement of the subscription liability. Variable payments generally relate to operating costs or related costs for use of the IT assets not included in the calculation of the right-to-use intangible subscription asset. Subscription based intangible assets are reported with other capital assets on the statement of net position. Subscription based IT asset activity of the City is included in Note C – Capital Assets.

The City monitors changes in circumstances that would require remeasurement or change in subscription arrangement terms and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

As of December 31, 2023, the City had an outstanding liability for all its subscription based IT arrangements of \$3,037,170.

## Electric Utility Enterprise Loans

On December 17, 2019, the City of Fort Collins Electric Utility Enterprise (Enterprise) entered into a loan agreement not to exceed \$2,500,000 for the purpose of financing its Epic Program to assist certain customers of the Utility in financing home energy efficiency and renewable energy improvements by making loans to customers who are property owners. The loan is evidenced by a 2019 Taxable Subordinate Lien Revenue Note having a two-year advance period during which the Enterprise may draw funds. The loan shall be payable from and secured by the net pledged revenues of the Enterprise subordinate to the 2018 Revenue Bonds and on a parity with the 2020 loan and 2020 promissory note. On December 17, 2021, the two-year advance period matured. On December 30, 2021, through an amendment to the loan agreement the loan was converted to a three-year term loan and an eight-year term loan in the principal amount of \$400,000 and \$509,000 at fixed rate of 2.7% per annum and 3.9% per annum respectively. The outstanding balances as of December 31, 2023 on the two term loans are \$133,333 and \$381,750 respectively.

On April 17, 2020, the Enterprise entered into a loan agreement not to exceed \$2,500,000 for the purpose of financing its Epic Program to assist certain customers of the Utility in financing home energy efficiency and renewable energy improvements by making loans to customers who are property owners. The loan is evidenced by the 2020 Taxable Subordinate Lien Revenue Note having a two-year advance period during which the Enterprise may draw funds. The loan shall be payable from and secured by the net pledged revenues of the Enterprise subordinate to the 2018 Revenue Bonds and on a parity with the 2019 Taxable Subordinate Lien Revenue Note and the 2020 promissory note. On April 17, 2022, the two-year advance period matured. Per the conditions of the original agreement the note converted to a term loan. The terms of the loan are a 15-year term in the principal amount of \$695,000 at a fixed rate of 3.38% per annum. The outstanding balance as of December 31, 2023 is \$634,217.

On April 20, 2020, Enterprise entered into a loan agreement with the Colorado Energy Office for the purpose of financing its Epic Program to assist certain customers of the Utility in financing home energy efficiency and renewable energy improvements by making loans to customers who are property owners. The amount borrowed was \$800,000 with interest on the outstanding principal balance at a rate of zero percent. The principal shall be paid in one payment on April 20, 2035. If the principal is not paid when due, interest shall thereafter accrue on the full amount at the rate of 4%. The loan shall be payable from and secured by the net pledged revenues of the Enterprise subordinate to the 2018 Revenue Bonds and on a parity with the 2019 and 2020 Taxable Subordinate Lien Revenue Notes.

On May 31, 2022 the City of Fort Collins Electric Utility Enterprise entered into a loan agreement not to exceed \$2,500,000 for the purpose of financing its Epic Program to assist certain customers of the Utility in financing home energy efficiency and renewable energy improvements by making loans to customers who are property owners. The loan is evidenced by a 2022 Taxable Subordinate Lien Revenue Note having a two-year advance period during which the Enterprise may draw funds. The loan shall be payable from and secured by the net pledged revenues of the Enterprise subordinate to the 2018 Revenue bonds and on a parity with the 2020 loan agreement and the 2020 State loan agreement. As of December 31, 2023 the unfunded portion of the note is \$1,209,000.

On July 13, 2022 the City of Fort Collins Electric Utility Enterprise entered into a loan agreement not to exceed \$1,800,000 for the purpose of financing its Epic Program to assist certain customers of the Utility in financing home energy efficiency and renewable energy improvements by making loans to customers who are property owners. The loan is evidenced by a 2022 Taxable Subordinate Lien Revenue Note having a three-year advance period during which the Enterprise may draw funds. The loan shall be payable from and secured by the net pledged revenues of the Enterprise subordinate to the 2018 Revenue bonds and on a parity with the 2019 loan agreement, the 2020 loan agreement, the 2020 State loan agreement, and the 2022 loan agreement. Additionally, on July 13, 2023 on the first anniversary of the loan agreement funds drawn up to that date per conditions of the original agreement were converted to a term loan. The terms of the loan are 166-months term in the principal amount of \$1,012,000 at a fixed rate of 5.56 per annum. As of December 31, 2023 the unfunded portion of the note is \$692,000; while the outstanding balance of the term loan is \$991,968.

Light and Power pledged revenue obligations for direct borrowings are as follows:

<u>Date Issued</u>	<u>Description</u>	<u>Amount of Revenue Pledged</u>	<u>Purpose of Debt</u>	<u>Term of Commitment</u>
2021	Light & Power 2021 A	\$ 136,947	Customer energy efficiency	through 2024
2021	Light & Power 2021 B	433,859	Customer energy efficiency	through 2029

The City is maintaining all reserves required by ordinances and agreements with other third parties. Within the governmental funds, these reserves are being maintained in debt service and special revenue funds as required by ordinances or agreements.

### **Conduit Debt Obligations**

From time to time, the City has issued economic development revenue bonds, industrial revenue bonds, multifamily housing revenue bonds, and pollution control refunding revenue bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by sources external to the City and are payable solely from payments received from outside parties. The City is not obligated in any manner for repayment on the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of December 31, 2023 the aggregate principal amount payable for the bonds was \$38,128,000.

### **Liquidation and Reporting of Governmental Activities Long-Term Liabilities**

The General Fund is primarily used to liquidate the governmental activities liabilities for compensated absences, net pension liability and net post-employment health care obligation.

Internal service funds, except for the Utility Customer Service and Administration Fund, predominantly serve the governmental funds. Accordingly, long-term liabilities for these funds are included as part of the above totals for governmental activities. Long-term liabilities of the Utility Customer Service and Administration internal service fund are included as part of the totals for the business-type activities.

**F. Fund Balances**

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions for governmental fund types. The following table represents these classifications and the purposes for which the amounts can be spent as of December 31, 2023.

<b>Fund Balances (Deficit):</b>	<b>General</b>	<b>Transportation Services</b>	<b>Capital Projects</b>	<b>Urban Renewal Authority</b>	<b>Other Governmental Funds</b>	<b>Total</b>

**Udall Endowment:** In 1996 and 2000, the City received a donation of 61 acres of land for use by the City as a natural area. The donor also provided \$125,000 to be used for maintenance of the property. The amount remains in perpetual trust. Income is used solely for the maintenance the property. The endowment does not appreciate, and interest earnings are appropriated in accordance with City Code and Charter. The endowment is recorded as non-spendable fund balance/restricted net position, and the cumulative income is recorded as restricted fund balance/net position.

## NOTE IV. OTHER INFORMATION

### A. Risk Management

#### Property, Liability, and Workers Compensation

The City self-insures a portion of its comprehensive automobile liability, general liability, police liability, and public official liability exposures as well as damage or destruction of City owned property. The City utilizes the Self- Insurance Fund (an internal service fund) to finance and account for risks of property and liability loss.

The City purchases property insurance that has a \$50,000 per occurrence deductible for most causes of loss, earth movement deductible is \$100,000. Flood deductibles are \$100,000 per occurrence, except in Special Flood Hazard Areas (SFHA) covered by FEMA, with separate deductibles applying - \$500,000 for building, \$500,000 for personal property, and \$100,000 for time element costs. Named Storm deductibles are \$50,000. Windstorm or hail deductibles are 5 percent of Total Insurable Values at each insured location involved in the loss, subject to a minimum of \$100,000. Employees' tools has a \$10,000 deductible. Crime and boiler and machinery coverage has a \$10,000 deductible. Vehicles have a \$50,000 deductible.

The City purchases liability insurance from private insurance companies with the assistance of an insurance broker, Holmes Murphy. These policies have a \$500,000 deductible/self-insured retention for all types of liability claims. Coverage limits are as follows:

General, Law Enforcement and Wrongful Acts Liability – \$7 million/occurrence, \$7 million aggregate, with aggregate applying to each coverage separately.

General liability - \$15 million occurrence and aggregate.

Auto Liability - \$10 million/occurrence with no aggregate.

Public Official Liability - \$10 million/each wrongful act, \$10 million aggregate.

Workers' Compensation losses are self-insured up to \$500,000 for all worker classifications, excluding police and electrical utility works, which is \$750,000. An excess policy providing limits mandated by the State of Colorado provides coverage above the self-insured retention.

The Downtown Development Authority, a component unit, purchases general, public official liability, property, employment practices liability, non-owned auto liability, hired auto physical damage, workers compensation, Crime, and excess liability coverage from The Colorado Special Districts (CSD) Pool. The general liability policy has no deductible, the public official liability policy has a \$1,000 deductible and the employment related practice claims have a 50% of loss, with a maximum \$100,000 per occurrence deductible. The property coverage has a deductible of \$500. Crime coverage has a \$500 deductible per occurrence. Coverage limits are as follows:

General Liability – \$2,000,000 per occurrence, no annual aggregate

Public Entity Liability - \$2,000,000 per occurrence limit / no annual aggregate (this includes all the lines of liability, with an overall limit of \$2M for GL, AL, POL, EPL, with various sub-limits).

Public Official Liability - \$2,000,000 per occurrence limit, no annual aggregate

Excess Liability - \$1,000,000 per occurrence, no annual aggregate

Workers Compensation Liability – Part A is paid according to state schedule Part B

Employers Liability - \$2,000,000 per employee/accident/disease

Crime coverage - \$100,000 per occurrence

## Employee Health and Illness

The City and the component unit self-fund their employees for comprehensive major medical benefits under an Exclusive Provider Option (EPO) health plan and a High Deductible Health Plan. The Benefits Fund (an internal service fund) is utilized to finance and account for medical risks of loss. Stop-loss coverage is retained as excess risk coverage, applying on a per occurrence basis with 2018 being \$225,000, and 2019-2023 being \$250,000 per occurrence. During the past five years, there have been 45 claims that have exceeded the stop-loss limit.

## Funding and Claims Liabilities

All funds or employees of the City, as applicable, participate in the above risk management programs. Charges to City funds for these services are based on estimates of the amounts needed to pay claims, establish reserves for catastrophic losses, and pay policy premiums.

Claims liabilities for the Self-Insurance and Benefits Funds as of December 31, 2023, amount to \$6,792,882 and \$2,647,700, respectively. These claims were determined on an actuarial basis and reflect the GASB Statement No. 10 requirement that a liability for claims be reported, if information prior to the issuance of the City's financial statements indicates that it is probable that a liability has been incurred at December 31, and the amount of the loss can be reasonably estimated. The liability of \$6,792,882 for the Self Insurance Fund is undiscounted and reflects a 75% confidence level factor. The discount refers to the full or undiscounted amount reduced for future investment earnings that can be generated on funds held between the date of valuation and the date of the final payment of claims. Changes in claims liabilities amounts for 2022, and 2023 are as follows:

	Self-Insurance		Benefits	
	2023	2022	2023	2022
Medical claims liability, beginning of year	\$ 5,779,443	\$ 6,775,965	\$ 2,329,300	\$ 2,108,100
Claims & changes in estimates	2,608,903	288,932	25,659,300	23,349,074
Claim payments	(1,595,464)	(1,285,454)	(25,340,900)	(23,127,874)
Medical claims liability, end of year	<u>\$ 6,792,882</u>	<u>\$ 5,779,443</u>	<u>\$ 2,647,700</u>	<u>\$ 2,329,300</u>

## Potentially Responsible Party

On May 6, 2019, the City received communication from a State regulatory agency that it is considered a potentially responsible party (PRP), as that term is defined in Statement No. 49 of the Governmental Accounting Standards Board, Accounting and Financial Reporting for Pollution Remediation Obligations (GASB 49), as are two other identified PRPs, related to groundwater protection standards at a solid waste disposal facility on property that is owned in part by the City.

In 2020 PRPs entered into an Intergovernmental Agreement (IGA) related to corrective measures at the landfill. This IGA defined each PRPs financial responsibility as it relates to the remediation efforts of the landfill. The operator PRP will be responsible for the first \$3,000,000 of remediation costs. If remediation costs exceed \$3,000,000 the City will pay 30% of the additional remediation costs. As of December 31, 2023, the City has not expended other financial resources associated with potential remediation. In March of 2024, the City was provided with an updated estimate of remediation expenses. As a result of the updated estimated the City increased the accrued liability from \$281,505 to \$353,539, and increase of \$72,034. This update was made in accordance with Statement No. 49. According to the operator PRP the City can expect costs to be incurred for the first time in 2024.

## **B. Employee Retirement Systems and Pension Plans**

### **1. General Employees' Retirement Plan**

#### *Plan Description*

The General Employees' Retirement Plan (the Plan) is a governmental plan established pursuant to IRS Code Section 414(d). The Plan is administered by the General Employees' Retirement Committee (GERC) with City Council having the option to alter, amend or terminate the Plan. All permanent, classified, non-uniformed employees hired before January 1, 1999 are eligible to be members of the General Employees' Retirement Plan, a single-employer defined benefit plan. Employees hired after January 1, 1999 are only eligible to participate in the Money Purchase Plan. The benefits and refunds of the Plan are recognized when due and payable in accordance with the terms of the plan.

Benefits vest 40% after 2 years of credited service and 20% for each year thereafter until 100% is attained after 5 years. Employees who retire at or after age 65 with 5 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1.5% of final average monthly compensation multiplied by years of credited service. Final average monthly compensation is the highest average of the considered compensation during 60 consecutive full calendar months out of the last 120 calendar months of credited service. A member is eligible for an early retirement benefit after age 55 and completion of 2 years of credited service. The monthly benefit, payable for life, is equal to the vested portion of the normal retirement benefit based on credited service and compensation at early retirement, reduced by 1/180th for each of the first 60 months and 1/360th for each additional month by which payments commence prior to normal retirement date.

The Plan also provides for death and disability benefits. A death benefit of approximately 50% of the member's vested accrued benefit at the date of death is payable to the employee's spouse for life beginning on the first day of the month following the later of the date of death or the date the member would have been age 55. The spouse may elect to receive the actuarial equivalent lump-sum payment. If the member was not married, the beneficiary or estate would receive the actuarial single-sum payment of the benefit.

As of December 31, 2023, employee membership data related to the Plan was as follows:

Retirees and beneficiaries currently receiving benefits	266
Inactive employees entitled to but not yet receiving benefits	34
Active plan participants	<u>23</u>
Total	323

The Plan is accounted for in the General Employees' Retirement Plan Pension Fund (a pension trust fund). The entire cost of the Plan is paid by the City as established or amended by City Council. The City's current funding policy is to contribute 10.5% of the compensation for active plan participants plus an annual supplemental contribution while the plan is underfunded.

The Plan does not issue a stand-alone financial report. Financial statements for the Plan are presented within the City's financial statements as a fiduciary pension trust fund.

### ***Net Pension Liability Actuarial Assumptions***

An actuarial valuation is performed annually to determine the total pension liability. The net pension liability is to be measured as the total pension liability less the Plan's fiduciary net position. To value the Plan, the actuary must predict future events such as investment return, mortality, and rates of termination and retirement using actuarial assumptions. Any variation in future experience from that expected from these assumptions will result in corresponding changes in the estimated costs of the Plan's benefits. A description of assumptions applied in the current valuation follow.

Valuation date	January 1, 2024
Measurement date	December 31, 2023
Inflation	2.25%
Salary increase including inflation	Graded by age including inflation, productivity, and merit increases
Mortality	Pub-2010 General Employees Mortality Tables projected generationally using Scale MP-2021
Actuarial cost method	Entry Age Normal
Asset valuation method	Market Value
Investment rate of return	6.00% per annum, compounded annually net of investment-related expenses
COLA	None
Change in Assumptions	The mortality improvement projection scale was updated to MP-2021.
Significant Changes	There were no significant changes between valuation date and measurement date

### ***Discount Rate***

The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees; therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return of 6%. There is no change in the discount rate since the prior measurement period, as follows:

Measurement Date	12/31/23
Discount Rate	6.00%
Long-term expected rate of return, net of investment expense	6.00%
Bond Buyer General Obligation 20-Bond Municipal Bond Index	3.26%

### ***Money-Weighted Rate of Return***

The money-weighted rate of return considers the changing amounts actually invested during a period and weights the amount of pension plan investments by the proportion of time they are available to earn a return during that period. External cash flows are determined on a monthly basis and are assumed to occur at the middle of each month. External cash inflows are netted with external cash outflows, resulting in a net external cash flow each month. The money-weighted rate of return is calculated net of investment expenses.

Fiscal Year Ending Weighted December 31	Net Money- Rate of Return
2023	16.63%
2022	-14.35%
2021	12.73%

### ***Long-Term Expected Rate of Return***

The best-estimate range for long-term expected rate of return is determined by adding expected inflation to the expected long-term real returns and reflecting expected volatility and correlation. The following is the Plan's asset target allocations and the long-term expected geometric real rate of return for each asset class as of December 31, 2023.

Asset Class	Target Allocation	Long-Term Expected Geometric Real Rate of Return
Domestic Equity	45%	3.5%
International Equity	15%	5.7%
Fixed Income	40%	2.1%

***Change in Net Pension Liability***

	Total Pension Liability (a)	Increase (Decrease) Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances as of December 31, 2022	\$58,477,391	\$43,338,265	\$15,139,126
Beginning Year Adjustment	—	—	—
Changes for the year			
Service Cost	110,566	—	110,566
Interest on total pension liability	3,375,443	—	3,375,443
Effect of economic/demographic gains or losses	(478,739)	—	(\$478,739)
Effect of assumption changes or inputs	127,455	—	127,455
Benefit payments	(4,730,051)	(4,730,051)	—
Employer contributions	—	1,321,307	(1,321,307)
Net investment income	—	6,972,521	(6,972,521)
Administrative expense	—	(23,358)	23,358
Balances as of December 31, 2023	<u>\$56,882,065</u>	<u>\$46,878,684</u>	<u>\$10,003,381</u>

***Sensitivity Analysis***

The following presents the plan’s fiduciary net position as a percentage of the total pension liability, calculated using the discount rate of 6.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.00%) or 1 percentage point higher (7.00%) than the current rate.

	1% Decrease 5.00%	Current Discount Rate 6.00%	1% Increase 7.00%
Total Pension Liability	\$61,982,429	\$56,882,065	\$52,462,080
Fiduciary Net Position	46,878,684	46,878,684	46,878,684
Net Pension Liability	15,103,745	10,003,381	5,583,396
Fiduciary Net Position as % of Total Pension Liability	75.6%	82.4%	89.4%

***Pension Expense and Deferred Outflows/Inflows of Resources Related to Pension***

For the year ended December 31, 2023, the City recognized pension expense of \$824,905. The City reported deferred outflows/(inflows) of resources related to pension from the following source:

Net difference between projected and actual earnings: \$695,440

Deferred outflows/(inflows) for the net difference between projected and actual earnings are recognized over a period of five years. Amounts reported as deferred outflows of resources related to pension will be recognized in the pension expense as follows:

Year Ending December 31	Net Deferred Outflows/(Inflows) of Resources
2024	\$ (247,099)
2025	581,650
2026	1,262,041
2027	(901,152)
2028	—
Total	<u>\$ 695,440</u>

**Contributions and Reserves**

The Plan's funding policy provides for actuarially determined periodic rates determined by the entry age normal cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the valuation is allocated on a level basis over the earnings of the individual between entry age and assumed exit age. Contributions are based on the actuarially determined rates. For 2023, the City contributed 68.5% of covered pay to the Plan as well as the supplemental contributions; this amounted to \$1,321,307. The authority for establishing or amending the obligation to make contributions rests with City Council.

Costs of administering the Plan are all financed from contributions and earnings of the Plan. The entire balance of the Plan's net position available for benefits as of December 31, 2023, is \$46,878,494 all of which is reserved for benefits of employees and beneficiaries.

**Money Purchase Plan 401(a)**

The City offers its employees a defined contribution money purchase plan. The City does not have administrative involvement and does not perform the investment function of this plan; therefore, it is not included in the City's financial statements. Classified employees were offered the plan for the first time in 1995. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees are eligible to participate six months from the date of employment. The plan requires both employer and employees to contribute amounts ranging from 3% to 10% (depending on job classification) of base salary each pay period. Contributions made by the City are not taxable to the employee until they are withdrawn. Employee contributions are made with pre-tax dollars, and the earnings on City and employee contributions are not taxed until withdrawn. Except for certain categories of police personnel, employees are fully vested upon initial participation in the plan. Sworn police officers and emergency service dispatchers, who receive higher contribution rates, are fully vested upon completion of three years of service. Plan provisions and contribution requirements are established and may be amended by City Council. City and employee contributions to the plan were \$10,399,702 and \$5,583,499, respectively during 2023.

## **Post Employment Health Plan (PEHP)**

In 2006 and 2007, the City offered to classified and unclassified management employees the employer- sponsored health benefits savings vehicle that allowed the employee to accumulate assets to pay for medical expenses in retirement on a tax-free basis. As of December 31, 2007, the plan has been frozen. There can no longer be any money withheld for this plan. Police Services, through the Collective Bargaining Unit (CBU), continue to offer a mandatory PEHP plan to collective bargaining unit members only. Both the frozen City plan and the current CBU plan are administered by Nationwide. Both the frozen City plan and the current CBU plan are deemed defined contribution plans administered through trusts.

The PEHP plan offers triple tax advantage to employees. Employee contributions are made through pre-tax payroll deductions, are invested in Nationwide funds and grow tax-free, and monies can be withdrawn tax-free for qualifying expenses. No federal, state or FICA tax will be withheld. Employees cannot change their elections after their initial enrollment. The CBU PEHP plan requires a mandatory 1.25% contribution to be made by all qualifying participants with less than 10 years of service, 1.50% for participants with 10-20 years of service, and 1.75% for participants with more than 20 years of service. In addition to the mandatory contribution, the CBU negotiated additional contributions based on years of service. The City will also make a one-time contribution in an employee's PEHP consistent with the years of service. For the one time amounts it is \$5,000 for 10 years of service, \$7,500 for 15 years of service, \$12,000 for 20 years of service, and \$15,000 for 25 years of service. The City agreed to pay a one-time catch up in 2022 for eligible employees who have already passed one or more of those milestones. Once participants become eligible to get reimbursed from their own PEHP account, they can turn in receipts to a third-party administrator and be reimbursed with tax- free monies. If the employee passes away, the employee's spouse and dependents are automatically eligible to use the account and are reimbursed on a tax-free basis. Employer and employee contributions to the CBU PEHP plan were \$732,869 and \$398,814, respectively during 2022. In addition, as described above, the City made additional contributions in the amount of \$240,000.

## **2. Statewide Death and Disability Plan**

### ***Plan Description***

The City contributes to the Fire & Police Pension Association (the Plan), a multi-employer cost sharing other post employment benefit plan (OPEB) covering full-time employees of substantially all fire and police departments in Colorado. Contributions to the Plan are used solely for the payment of death and disability benefits. The Plan was established in 1980 pursuant to Colorado Revised Statutes. All uniformed employees are eligible to be members of the Fire & Police Pension Association (FPPA).

### ***Funding Policy and City Contributions***

Prior to 1997, the State of Colorado, whose contributions were established by Colorado statute, primarily funded the Plan. The State made a one-time contribution in 1997 of \$39,000,000 to fund the past and future service costs for all firefighters and police officers hired prior to January 1, 1997. No further State contributions are anticipated.

The annual contribution rate for members hired on or after January 1, 1997 and for members covered by Social Security is 2.6% as of January 1, 2011. The FPPA board voted to increase the contribution from 3.0% in 2021 to 3.2% for 2022. During 2022 the City's contributions were \$1,352,244 equal to the statutory required contribution.

## ***Benefits***

Benefits are established by Colorado statute.

If a member dies prior to retirement, the surviving spouse is entitled to a benefit equal to 40% of the member's monthly base salary with an additional 10% of base salary if a surviving spouse has two or more dependent children, or if there are three or more dependent children without a surviving spouse. Benefit entitlement continues until death of the spouse and death, marriage, or other termination of dependency of children.

A member who becomes disabled prior to retirement shall be eligible for disability benefits. The benefit is 70% of base salary for cases of total disability. Effective October 1, 2002, the benefit is 50% of base salary for a permanent occupational disability and 40% of base pay for a temporary occupation disability.

Benefits paid to members are evaluated and may be re-determined on October 1 of each year. Any increase in the level of benefits cannot increase by more than 3% for any one year. Totally disabled members and their beneficiaries receive an automatic cost of living adjustment each year of 3%.

Separately issued financial statements and the related actuarial valuation may be obtained from the Fire & Police Pension Association at: <https://www.fppaco.org/annual-reports.html>.

In accordance with applicable authoritative guidance, FPPA classifies all contributions to the Plan as member (employee) contributions. This results in an employer contribution of 0% when calculating the employer's proportionate share of the net OPEB liability, related expenses, and deferral items. Therefore, no net OPEB liability, expense or deferral items are recorded by the City.

### **C. Commitments/Contingencies Construction Commitments**

The City had commitments of \$1,294,748 and \$601,124 for capital projects in governmental fund types, and proprietary fund types, respectively, at December 31, 2023. Future expenditures related to these commitments are expected to be financed through available resources and future revenues.

#### **Encumbrance Commitments for Proprietary Fund Types**

The financial statements do not include encumbrances for proprietary fund types. However, encumbrances for these funds are recorded by the City for management and budgetary control purposes. Outstanding encumbrance commitments for the proprietary funds at December 31, 2023 amounted to \$56,418,479.

#### **Street Oversizing Liability**

The City has contractual liabilities for street oversizing costs with various developers. The developers are required to install certain oversized streets as a condition of subdivision approval. Once the streets are installed and inspected by the City, a liability is recorded for the difference between a normal sized street and the oversized street installed.

Because the City has no control over when subdivisions will be developed and the related oversized street completed, the liability for uncompleted oversizing costs has not been reflected in the financial statements, because the amount is not considered by management to be probable and measurable.

## **Solid Waste Financial Assurance**

The City's Water Utility owns and operates a Water Treatment Facility, which through the treatment process produces solids, and therefore must provide financial assurance of estimates for post closure costs in accordance with regulations pertaining to solid waste sites and facilities (6 CCR 1007-2, Part 1) as set by the State of Colorado Department of Public Health and Environment. The facility is not expected to be closed in the future, however in the event of closure the City estimates and provides assurance of total Closure Costs and Post- Closure Care Requirements of \$1,698,548 and \$393,351, respectively. Additionally, this estimate is not reported as a liability by the City because the solid waste generated from the Water Treatment Facility is for potable water and therefore is not subject to an external obligating event that requires the City to perform an asset retirement defined by GASB Statement No. 83, *Certain Asset Retirement Obligations*.

## **D. Legal Matters**

### **Pending Litigation and Grants**

Various claims and lawsuits are pending against the City. After consideration of applicable insurance policy coverage, and the relative merits of each claim or lawsuit, it is the opinion of the City Attorney and City management that the potential ultimate liability resulting from these actions, if any, will not have a material adverse financial effect on the City.

Under the terms of federal and state grants, periodic audits are required and certain costs may be questioned as not being appropriate expenditures under the terms of the grants. Such audits could lead to reimbursement to the grantor agencies. City management believes disallowances, if any, resulting from any such audits would be immaterial. There currently are no material disallowed or questioned costs.

### **Tax, Spending, and Debt Limitations**

Article X, Section 20, of the State Constitution has several limitations, including those for revenue, expenditures, property taxes, and issuance of debt. These provisions of the Constitution are complex and subject to judicial interpretation. In the opinion of management, the City is in compliance with such provisions. In 1997, the City's electorate approved the ongoing retention of excess revenue by the City, requiring the excess revenue be spent for specified purposes. This alleviated the need by the City to seek annual approval to retain excess revenue and excess property tax.

The excess revenue will be used for the purposes of public health and safety (including, but not limited to environmental monitoring and mitigation), growth management, transportation services, and maintaining and repairing City facilities.

The State Constitution also requires local governments to establish emergency reserves equal to at least 3% of fiscal year spending as defined in the amendment. These emergency reserves cannot be used to compensate for economic conditions, revenue short falls, or salary and benefit increases. As of December 31, 2023, the amount required as an emergency reserve in compliance with the amendment is \$9,011,743 and is shown as a restriction of fund balance in the General Fund.

## E. Related Party Transactions

Due to the nature of the relationships, the City has related party transactions with various entities. The following transactions have occurred during 2023:

### 1. Northern Colorado Regional Airport

#### *Intergovernmental Agreement*

The Airport is jointly operated under an Intergovernmental Agreement between the City of Fort Collins, Colorado and the City of Loveland, Colorado. Pursuant to the agreement, any needed contributions for annual operating budgets or capital improvements are shared equally by both cities. Also, either City may invest additional funds in the Airport as it sees fit.

Since July 3, 1979, ownership of assets vests equally with each City. Assets acquired prior to July 3, 1979 vested one-third with the City of Loveland and two-thirds with the City of Fort Collins. The agreement provides that if either City does not pay its one-half of agreed expenses in a given year, it will convey to the other City ten percent of its total Airport ownership.

Pursuant to an Intergovernmental Agreement between the City of Fort Collins, Colorado and the City of Loveland, Colorado, dated March 19, 2019, each of the Cities agreed to treat their required annual contribution as a fair market value rental rate for the Federal Aviation Administration Release property, defined therein as a portion of the Airport property, to be used for a police training facility. Each City contributed \$206,086 in 2023.

Northern Colorado Regional Airport is undertaking a project to construct a new public terminal facility for the purpose of growing multi-modal transportation, charters, and future airline services. The project is primarily funded by Federal funding, however the City of Fort Collins and the City of Loveland agreed to each provide an additional \$1,000,000 in support of the project. The City provided the \$1,000,000 in support in 2023.

#### *Financial Information*

The Northern Colorado Regional Airport is accounted for as a joint venture. A summary of financial information is as follows:

As of December 31, 2023

Total current assets	\$ 9,562,715
Total capital Assets (net of accumulated depreciation)	19,843,609
Total Assets	<u>29,406,324</u>
Total current liabilities	<u>1,132,126</u>
Total Net Position	<u><u>28,274,198</u></u>
Net investment in capital assets	19,843,609
Restricted capital	-
Unrestricted net position	8,430,589
Total Net Position	<u><u>\$ 28,274,198</u></u>

For the Year Ended December 31, 2023

Total operating revenue	\$ 2,113,002
Total operating expense	(3,029,654)
Interest income	90,148
Federal/State grants	63,851
Contributed Asset	350,000
Intergovernmental - Aid to Construction	2,000,000
Capital contributions	5,449,371
Change in Net Position	<u><u>\$ 7,036,718</u></u>

The City’s annual contribution is reflected as an expenditure of the General Fund. The City’s share of The Northern Colorado Regional Airport’s Net Position and Change in Net Position are reflected in the City’s Statement of Net Position and Statement of Activities, respectively.

*Stand-Alone Financial Statements*

The stand-alone financial statements for the Airport can be obtained from the City of Loveland Finance Department at 500 East Third Street, Loveland, Colorado, 80537.

**2. Poudre Fire Authority**

As mentioned in the summary of significant accounting policies, the City provides funding for PFA. During 2023, such funding amounted to \$39,361,721 and was an expenditure in the General Fund. In addition, the City provided accounting and administrative services to PFA at no charge.

**3. Poudre River Public Library District**

Pursuant to an intergovernmental agreement with the Poudre River Public Library District, the City is contracted to provide support services including accounting, budgeting, treasury management, accounts payable, payroll, human resources, purchasing, and information technology. In 2023, the District paid the City \$0.396 million for these services. The City also provides employee benefits to the District’s employees through the City’s Human Resources Department. The District and its employees pay the same benefit premiums as the City and its employees. Finally, the District contracts with the City to provide operations services for janitorial and facilities maintenance that are billed on a usage basis.

**4. Platte River Power Authority**

The Light and Power Fund purchases all of its electrical power from PRPA. During 2023, these purchases amounted to \$99.3 million of which \$8.0 million is included in accounts payable at December 31, 2023.

**5. North Front Range Metropolitan Planning Organization**

The City allows the North Front Range Metropolitan Planning Organization (NFRMPO) to participate in its employee benefit plans and bills NFRMPO for this coverage. In addition, NFRMPO also used the City’s fleet services for vehicle maintenance. During 2023, billings amounted to:

Benefits	\$ 168,631
Services	45,212
Total	<u><u>\$ 213,843</u></u>

## **F. Subsequent Events**

The City has evaluated subsequent events through the compilation and audit review of this Annual Comprehensive Financials Report, and determined that there have been no events that have occurred that would required adjustments to our disclosures as presented.

THIS PAGE INTENTIONALLY LEFT BLANK

## REQUIRED SUPPLEMENTARY INFORMATION

### I. Modified Approach for City Streets Infrastructure Capital Assets

In accordance with GASB Statement No. 34, the City is required to account for and report infrastructure capital assets. The City has several major infrastructure systems including the street system and various systems that distribute utility services. Each major infrastructure system can be divided into subsystems. For example, the street system can be divided into concrete and asphalt pavements, concrete curb and gutters, sidewalks, medians, streetlights, traffic control devices (signs, signals and pavement markings), landscaping and land. Subsystem detail is not presented in these basic financial statements; however, the City maintains detailed information on these subsystems.

The City has elected to use the "Modified Approach" as defined by GASB Statement No. 34 for infrastructure reporting for its Streets Pavement System. Under GASB Statement No. 34, eligible infrastructure capital assets are not required to be depreciated under the following requirements:

The City manages the eligible infrastructure capital assets using an asset management system with characteristics of (1) an up-to-date inventory; (2) perform condition assessments and summarize the results using a measurement scale; and (3) estimate annual amount to maintain and preserve at the established condition assessment level.

The City documents that the eligible infrastructure capital assets are being preserved approximately at or above the established and disclosed condition assessment level. The City's Pavement Management Program conducts condition assessment surveys on a three-year cycle assuring that all data is updated within three-year period. City owned streets are classified based on land use, access and traffic utilization into the following three classifications: arterial, collector and local. Each street was assigned a physical condition based on potential defects. A Pavement Condition Index (PCI), a nationally recognized index, was assigned to each street and expressed in a continuous scale from 0 to 100, where 0 is assigned to the least acceptable physical condition and 100 is assigned to the physical characteristics of a new street.

The City of Fort Collins is changing its focus from specifying a targeted average condition value to setting a specified Level of Service (LOS). Setting a LOS will allow for a range of funding needs to be determined to assess what funding level best suits the needs of the City in terms of desired LOS and available funding.

LOS is a customer-driven measurement of condition. The City of Fort Collins' goal is to maintain a LOS of "B". LOS B is a high level of service in which pavements are in good condition, few deficiencies are present, the roads are providing good ride quality, low vehicle operating costs, minor signs of deterioration, and with few safety-related issues. Preventive and corrective maintenance activities can be used to keep the average network condition maintained. The 2023 overall average PCI of the City's street system was 72.8, approximately low-range within the LOS of "B". The City's street system was at a PCI of 73.3 in 2022 and 73.7 in 2021. The average detail condition is as follows:

Level of service.....	PCI Range.....	Percent of Roads
LOS A (excellent).....	100 to 86.....	15%
LOS B (good).....	85 to 71.....	46%
LOS C (fair).....	70 to 56.....	30%
LOS D (poor).....	55 to 41.....	8%
LOS F (very poor).....	40 to 0.....	1%

The City's next full three-year assessment will be completed by the end of 2024.

**REQUIRED SUPPLEMENTARY INFORMATION (continued)**

The City's streets are constantly deteriorating resulting from the following five factors; (1) traffic loads; (2) the sun's ultra-violet rays drying out and breaking down the top layer of pavement; (3) utility company/private development interests trenching operations; (4) winter freeze/thaw condition and water damage from both natural and other urban runoff; and (5) growth of the existing street system. The City is continuously taking actions to arrest the deterioration through short-term maintenance activities such as crack sealing, pothole patching, street sweeping, and sidewalk repair.

The City's short-term maintenance expenditures delay deterioration; however, the overall network condition is not improved through these maintenance expenditures. The City has estimated the amount of annual expenditures required to maintain the City's streets at a Level of Service B and uses this data to inform the budgeted maintenance costs. A schedule of budgeted maintenance calculated to maintain and preserve its streets at the current level compared to actual expenditures for the street maintenance for the last nine years is presented below:

Year	Budgeted Maintenance Estimate	Actual Experience
2023	\$ 18,917,443	\$ 17,038,273
2022 *	17,296,130	16,275,590
2021	16,277,684	15,669,323
2020	17,715,299	14,505,437
2019 *	18,355,293	15,953,470
2018	17,892,042	15,370,349
2017	18,678,501	19,113,302
2016 *	16,700,000	16,124,280
2015	15,858,500	15,015,591
2014	15,069,218	15,046,817

\*Indicates year of published pavement condition assessment

**SCHEDULE OF INVESTMENT RETURNS  
GENERAL EMPLOYEES' RETIREMENT  
PLAN  
LAST TEN FISCAL YEARS**

Fiscal Year Ending December 31	Net Money-Weighted Rate of Return
2023	16.6%
2022	-14.4%
2021	12.7%
2020	15.0%
2019	21.3%
2018	-5.1%
2017	16.5%
2016	5.9%
2015	-0.6%
2014	6.0%

*Rate of return for 2014 and later is net of investment expenses only.*

**REQUIRED SUPPLEMENTARY INFORMATION (continued)**

**Actuarial Assumptions - 2023**

Valuation date	January 1, 2024
Measurement date	December 31, 2023
Inflation	2.25%
Salary increase including inflation	Graded by age including inflation, productivity, and merit increases
Mortality	Pub-2010 General Employees Mortality Tables projected generationally using Scale MP-2021
Actuarial cost method	Entry Age Normal
Asset valuation method	Market Value
Investment rate of return	6.00% per annum, compounded annually net of investment-related expenses
COLA	None
Change in assumptions	The mortality improvement projection scale was updated to MP-2021.
Significant changes	There were no significant changes between the fiscal year end and the valuation date.

**NON-MAJOR GOVERNMENTAL FUNDS  
COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES**

---

**Special Revenue Funds**

**Capital Expansion** -- to account for capital expansion fees collected by the City and various projects funded by those fees.

**Sales and Use Tax** -- to account for collections of the City's .25% sales and use tax designated for Natural Areas.

**CCIP** -- to account for collections of the City's .25% sales and use tax designated for Community Capital Improvement Program, a 10-year voter-approved tax renewal dedicated to specific projects.

**Natural Areas** -- to account for dedicated financial resources to be used for the acquisition of natural areas and trails. In addition, some of the fund is used for long-term management of existing natural areas and trails.

**Cultural Services and Facilities** -- to account for revenues received from the Lincoln Center facility, performing and visual arts and General Fund subsidies used to promote cultural activities.

**Recreation** -- to account for recreation fees and General Fund subsidies used to provide recreational programs for citizens.

**Cemeteries** -- to account for revenues collected from the sale of burial plots.

**Perpetual Care** -- to account for monies set aside for the maintenance costs of burial plots.

**Community Development Block Grant (CDBG)** -- to account for revenues received from the federal government which are restricted to financing the City's Community Development Block Grant Program.

**Home Program** -- to account for revenues received from the federal government restricted to financing the City's Home Program.

**Transit Services** -- to account for federal grants and other revenues utilized to operate and maintain the City's bus system.

**Transportation Capital Expansion Fees** -- to account for capital expansion fees used to pay the City's portion of street oversizing costs.

**Parking** -- to account for the revenue and operations of Parking Services.

**General Improvement District No. 1** -- to account for property taxes and investment earnings used to fund debt service and other activities of the General Improvement District No. 1, a blended component unit.

**General Improvement District No. 15 - Skyview** -- to account for property taxes and investment earnings used to fund the maintenance of the Skyview Subdivision street system of the General Improvement District No. 15, a blended component unit.

**Keep Fort Collins Great** - is used to account for collections of the City's 0.85% sales and use tax, which expired December 31, 2020

**Debt Service Fund**

**Fort Collins Leasing Corporation** -- to account for rental amounts received from lease payments between the City and the Corporation on municipal buildings and other structures. Monies used to pay certificates of participation issued by the Corporation.

**Capital Project Funds**

**Neighborhood Parkland** -- to account for parkland fees used to fund the acquisition, development and administration of neighborhood park and capital improvements.

**Conservation Trust Fund** -- to account for revenues received from the Colorado State Lottery through the State Conservation Trust Fund which are restricted to financing capital projects which relate to the acquisition and development of open space and trails.

- 1** Capital assets and leases net of accumulated depreciation/amortization used in governmental activities are not current financial resources. Therefore, they are not reported in the funds.
- 2** Long-term liabilities, including bonds payable, related interest, and compensated absences are not due and payable in the current period and therefore not reported in the funds.
- 3** **Nonspendable** fund balances indicate amounts that cannot be spent such as property held for resale. **Restricted** fund balances indicate amounts constrained for a specific purpose by external parties, constitutional provision or enabling legislation. **Assigned** fund balances indicate amounts the DDA intends to be used for specific purposes, but do not meet the criteria to be classified as restricted or committed.

SouthRidge-acres	128	128	128	128	128	128	133	133	133	133

<sup>1</sup> Unclear definition on police stations. For last 20 years have had 2 stations and added an addition one in 2017. Campus West station was closed in 2021.

<sup>2</sup> Unknown history of police car data; Police and Operation Services reviewed asset list, updated for 2018 figures. 8 Police asset system had duplications, was corrected in the Fall of 2020, 298 vehicles as of 2020 (includes 8 Motorcycles, 1 Armored Rescue Vehicle, 1 CRASH Call-Out Vehicle)

<sup>3</sup> The Land Bank program acquires unimproved sites that are appropriate for affordable housing and holds them long-term (5 years minimum), which will ultimately be sold at discount to non-profit developers to build affordable housing projects. Land Bank code allows up to 12 dwelling units per acre; report has consistently used 10 BU's per acre.

<sup>4</sup> As of 2022, more definitions provided by Light and Power: Underground distribution lines- circuit miles, Overhead distribution lines- circuit miles, Distribution transformers (includes units in service & in-stock)

<sup>5</sup> Updated 2017 Underground distribution lines-miles, data was incorrect

<sup>6</sup> Correction in calculating detention basin acres in 2019 with new GIS mapping and Maximo asset management data.

<sup>7</sup> Miles for 2015 and prior includes storm drainage systems not maintained by the City. Miles for 2016 includes only City of Fort Collins maintained pipes.

<sup>8</sup> Storm Drainage changes are due to correcting owned and maintained data in GIS.
