

# Traffic Unit

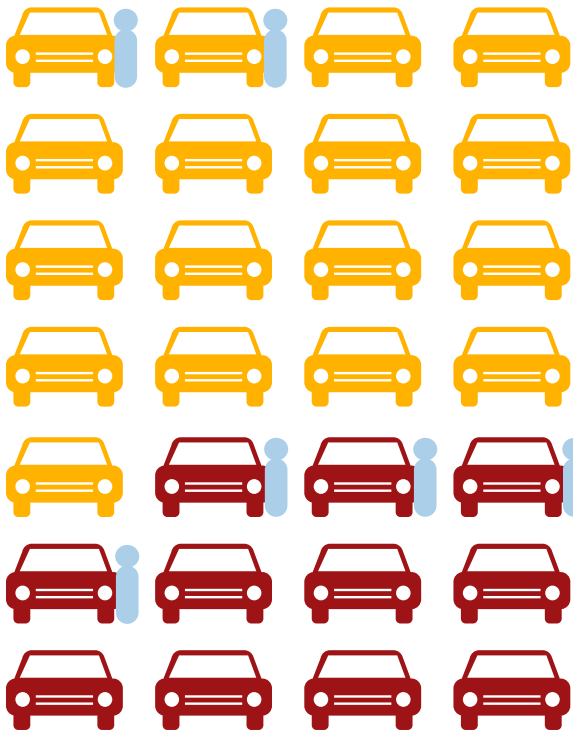

In 2021, the Traffic Unit continued to address the top traffic safety focus areas: **speeding, red light and stop sign violations, following too closely,** and **distracted driving.**

Traffic officers partnered with Traffic Operations and FCMoves to communicate high risk areas for enforcement opportunities and/or traffic engineering to enhance traffic safety in the city for all modes of transportation.

The team also worked with Downtown District One and Neighborhood Engagement Team to address traffic safety, noise issues, and modified exhaust/nuisance exhaust (rolling coal).

**CRASH:**  
Collision Reconstruction  
And Scene Handling

**21** CRASH Callouts

**6** Car + Pedestrian

**11** Fatalities
